INTRODUCTION

Title VI of the 1964 Civil Rights Act (42 U.S.C. 2000D-1) states that, “No person in the United States shall, on the ground of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance.” Title VI bars intentional discrimination as well as disparate impact discrimination (i.e., a neutral policy or practice that has a disparate impact on protected groups).

The President’s Executive Order on Environmental Justice further amplifies Title VI by providing that “each Federal agency shall make achieving environmental justice part of its mission by identifying and addressing, as appropriate, disproportionately high and adverse human health or environmental effects of its programs, policies, and activities on minority populations and low-income populations.”

Demographic data contained in this report were analyzed to allow the Hillsborough County Metropolitan Planning Organization (MPO) to respond appropriately to federal direction on racial and income discrimination during development of the MPO’s update of the 2025 Long Range Transportation Plan (LRTP). The results of the demographic analysis will be used to identify geographic sub-areas in the county with high minority and low-income populations (hereinafter “Environmental Justice Areas”). With this information, special consideration can be afforded to planning and conducting LRTP public outreach and evaluating potential impacts and benefits of proposed transportation projects on the persons who live in these areas.

The primary data used to produce this report was provided by the Census Transportation Planning Package (CTPP) 2000. CTPP 2000 is a set of special tabulations from the decennial census designed for transportation planning. Data
received from the Census 2000 long form questionnaire, which is mailed to one in six U.S. households, are calculated to produce the CTPP 2000.

Section 1 of this report analyzes aggregated data to identify the EJ Areas that will be recognized accordingly in the 2025 LRTP update. Later sections provide background analyses pertaining to individual minority groups and low-income populations (as inferred from social service provider service areas).

1. ENVIRONMENTAL JUSTICE AREAS

In this section, population data for minority and low-income groups have been aggregated in map format to reveal Environmental Justice (EJ) Areas in Hillsborough County. For the purposes of this analysis, EJ areas are defined as:

- Areas with minority populations, quantified by number, percentage and density (persons per square mile), that are in the upper measurement range specified in the analyses; and

- Areas with a median income less than $32,530 (80% of the Hillsborough County median income).

The aggregated data map series in this section identify the EJ Areas that will be recognized in the 2025 LRTP update.

1-1. Areas with Highest Minority Populations (Number and Density)

High minority Traffic Analysis Zones (TAZs) were selected based on the 2000 CTPP TAZ group for TAZs with a minority population of 1201 or more or a population density of 600 or more persons per square mile. These areas are distributed across Hillsborough County, with noted concentrations of minority populations in the
Town n’ Country, Wimauma, Brandon, and Citrus Park areas of Hillsborough County (refer to Map 1-1).

1-2. Areas with High Minority and Low Income Populations

In this section, the TAZ-based minority population analysis from Section 1-1 is aggregated with US Census block groups having a median household income of less than $32,530 (80% of Hillsborough County’s 2000 median income). Table 1-2 indicates high minority TAZs that contain low-income block groups. Map 1-2 shows low-income block groups that fall within high minority TAZs.

The combined high minority and low-income areas tend to be centrally located within the City of Tampa (north of downtown), the greater Plant City area, and the Cockroach Bay area.

</table>
Minority TAZs were selected based on 2000 CTPP TAZ group with minority population of 1201 or more or density greater than 600 persons per square mile.

Low Income areas were selected using the U.S. Dept of Commerce Bureau of Census 2000 at the block group level with median income <$32,530 (80% of Hillsborough County's 2000 Median Income).
1-3. Areas with High Black (Non-Hispanic) Population (Number and Density)

Map 1-3 illustrates TAZs with a Black population higher than 1800 and a Black population density greater than 600 persons per square mile. Three TAZs fit these criteria: 1) TAZ 470 (Temple Terrace area); 2) TAZ 654 (East Tampa/Progress Village area); 3) TAZ 72 (east Hillsborough/North 22nd Street area).

1-4. Areas with High Hispanic Population (Number and Density)

Map 1-4 shows TAZs with a Hispanic population higher than 1200 and a Hispanic population density greater than 600 persons per square mile. There are five areas where this standard is met: 1) TAZ 165 (North Armenia Avenue/I-275 area); 2) TAZ 329 (Town n’ County area); 3) TAZ 610 (Bloomingdale area); 4) TAZ 689 (Cockroach Bay area); and 5) TAZ 712 (Wimauma area).

AREAS WITH HIGH HISPANIC* POPULATION, 2000

HILLSBOROUGH COUNTY

Population Higher than 1200 and Density greater than 600 persons per square mile.

* Note: The category of Hispanics includes 66.0% White, 2.4% Black, 0.2% Asian, and 31.4% Other.
2. BLACK POPULATION

The population of Hillsborough County is comprised of 149,423 persons that are Black or African American. This population represents 15.0 percent of the total population.

Maps 2-1, 2-2, and 2-3 represent the geographic distribution of the Black population in Hillsborough County by total population, percent of total population, and population density (persons per square mile) by Traffic Analysis Zone (TAZ) in 2000.

As shown in Map 2-1, the greatest total populations of Blacks by TAZ (i.e., over 2,400 persons) are located in the core area of the county within the City of Tampa. These TAZs are located due north of downtown Tampa, just east of I - 275 in TAZs 443 and 470. The next highest range of population of Blacks by TAZ (i.e., 1801 to 2,400 persons) comprise six TAZs in close proximity to the intersection of I - 275 and US 301, western Hillsborough County, and the Plant City area.

Thirty-five TAZs contain the greatest percentage of Blacks (Map 2-2). Most of these TAZs are concentrated in the area just east of I - 275 north of downtown Tampa, south of the Hillsborough River, and west of North 56th street.

The greatest density of Blacks (over 800 persons per square mile) by TAZ reflects the general distribution pattern of the number and percentage of Blacks in Hillsborough County. The City of Tampa, Plant City and the Brandon area hold the greatest density of Black residents.

3. **HISPANIC POPULATION**

The population of Hillsborough County is comprised of 179,692 persons of Hispanic ethnicity. This population represents 18.0 percent of the total population. The county’s Hispanic population is further defined as being 66.0 percent White, 2.4 percent Black, 0.2 percent Asian, and 31.4 percent Other Minority.

Maps 3-1 through 3-3 illustrate the geographic distribution of the county’s Hispanic population by number, percentage, and density (persons per square mile). Geographic divisions are by Traffic Analysis Zones (TAZs).

Hillsborough County TAZs with the greatest total population of Hispanics (Map 3-1) generally coincide with those TAZs having the greatest percentage of Hispanics (Map 3-2). The Hispanic population is most concentrated in the following areas: the western side of the county near Sheldon Road and Hillsborough Avenue; Sheldon Road and Waters Avenue; Dale Mabry Highway and Gunn Highway; and the Himes Avenue/Madill Avenue north from Kennedy Boulevard to Sligh Avenue. Also heavily populated by Hispanics are the areas west and south of Plant City and proximate to Ruskin and Wimauma.

There are 38 TAZs in Hillsborough County with 800 or more Hispanic persons per square mile (Map 3-3), representing the most densely Hispanic populated TAZs. Most of these TAZs are located within the City of Tampa, in western Hillsborough County, along SR 60 through the Brandon area, and in and around Plant City.

4. **ASIAN POPULATION**

The population of Hillsborough County is comprised of 21,947 persons of Asian (Non-Hispanic) decent. This population represents 2.2 percent of the total population. Maps 4-1 through 4-3 represent total population, percent of the total population, and population density of all Asian (Non-Hispanic) residents in Hillsborough County by Traffic Analysis Zone (TAZ) in 2000.

As shown in Map 4-1, there are 19 TAZs with a high total population of Asians (i.e., greater than 200 persons). These TAZs are located predominantly in the areas of Town ‘n Country, Citrus Park, McDill Air Force Base, North Bruce B. Downs Boulevard, and Brandon.

Map 4-2 illustrates the sole area in Hillsborough County having a large percentage of Asians. The Asian population of TAZ 639 (the Port Sutton area) represents over 80 percent of the total population. Three TAZs have the next greatest percentage representing between 21 and 40 percent of the total population. Two of these TAZs are located in the Brandon area and one in the City of Temple Terrace.

Relative to population density (Map 4-3), those TAZs most densely populated by Asians (i.e., greater than 600 persons per square mile) are located in TAZs 452 and 453 (University of South Florida area). TAZs with Asian populations between 401 and 600 persons per square mile, the next highest population density range, are dispersed among TAZs north of Hillsborough Avenue and east of I-75.

5. OTHER MINORITIES

The Other Minorities category includes American Indian, Pacific Islander, Alaska Native, and Other Races population groups. In Hillsborough County this population is 72,796 persons, or 7.4 percent of the total county population.

Maps 5-1 through 5-3 represent total population, percent of the total population, and population density of Other Minorities (Non-Hispanic) in Hillsborough County by Traffic Analysis Zone (TAZ) in 2000.

Four TAZs contain Other Minority (Non-Hispanic) populations of over 250 persons (Map 5-1). The areas are represented by TAZ 314 (Westchase area), TAZ 231 (McDill area), and TAZs 610 and 635 (Brandon area).

Relative to percentage, Other Minorities (Non-Hispanic) do not represent large populations in Hillsborough County. TAZs 647 and 262 are the only TAZs that have a population percentage over 18%, at 27% and 47% respectively (Map 5-2).

Relative to population density (Map 4-3), those TAZs most densely populated by Other Minorities (Map 5-3) are near the Hillsborough River and I - 275 area in the downtown Tampa and in the area surrounding the University of South Florida.

Hillsborough County has one Indian Reservation, the location of which is depicted in Map 5-4.
6. SOCIAL SERVICES CLIENTS

Map 6-1 depicts the geographic distribution of the service areas of an array of social service providers in Hillsborough County. The map shows the zip code areas most frequently served by social service providers indicating a greater presence of social service clients. Zips codes with the highest number of social service providers are located in south county; east county (south of Plant City); east Tampa; and north of Fletcher Avenue, near I - 275.
