Meeting of the Livable Roadways Committee
Wednesday, March 21, 2018, 9:00 a.m.

I. Call to Order

II. Public Comment - 3 minutes per speaker, please

III. Approval of Minutes – February 21, 2018

IV. Action Items

A. Public Participation 2016 - 2017 Measures of Effectiveness Report (Brandon Berry, MPO Staff)

B. Approve “Transit User” Committee Member

V. Status Reports

A. Invision Tampa Streetcar Study (Milton Martinez, City of Tampa)

B. Vision Zero Quarterly Report (Gena Torres, MPO Staff)

VI. Old Business & New Business

A. LRC Next Meeting: April 18, 2018

B. Committee Chairs invited to Plan Hillsborough Retreat

C. March is Florida Bike Month #BikeMonthFL2018

   https://www.tampasdowntown.com/getting-around/bike-and-walk/florida-bike-month/

D. Garden Steps April 6, 2018 Event

VII. Adjournment

VIII. Addendum

A. MPO Meeting Summary & Committee Report

B. Special STWG State Coordinators Meeting 3/28/18

The full agenda packet is available on the MPO’s website, www.planhillsborough.org, or by calling (813) 272-5940.

The MPO does not discriminate in any of its programs or services. Public participation is solicited without regard to race, color, national origin, age, sex, religion, disability or family status. Learn more about our commitment to non-discrimination.

Persons needing interpreter services or accommodations for a disability in order to participate in this meeting, free of charge, are encouraged to contact Johnny Wong, 813-273-3774 x370 or wongj@plancom.org, three business days in advance of the
meeting. Also, if you are only able to speak Spanish, please call the Spanish helpline at (813) 273-3774, ext. 211.

Si necesita servicios de traducción, el MPO ofrece por gratis. Para registrarse por estos servicios, por favor llame a Johnny Wong directamente al (813) 273-3774, ext. 370 con tres días antes, o wongj@plancom.org de correo electrónico. También, si sólo se puede hablar en español, por favor llame a la línea de ayuda en español al (813) 273-3774, ext. 211.

In accordance with Title 17 U.S.C. Section 107, materials attached are for research and educational purposes, and are distributed without profit to MPO Board members, MPO staff, or related committees or subcommittees the MPO supports. The MPO has no affiliation whatsoever with the originator of attached articles nor is the MPO endorsed or sponsored by the originator. Persons wishing to use copyrighted material for purposes of their own that go beyond ‘fair use’ must first obtain permission from the copyright owner.

If a person decides to appeal any decision made by the board, he or she will need a record of the proceedings, and for such purpose may need to ensure that a verbatim record of the proceedings is made, which record includes the testimony and evidence upon which the appeal is to be based.
I. **CALL TO ORDER**

A quorum being established, Vice Chair Hey called the meeting to order at 9:02 a.m. and the Pledge of Allegiance took place. The meeting was held in the Plan Hillsborough Room on the 18th Floor of the County Center Building.

**Members Present:** Trista Brophy, Christopher Cochran, June Farrell, David Hey, Mark Hudson, Jason Jackman, Arizona Jenkins, Karen Kress, Nina Mabilleau, Anna Quinones, Chris Weber, Charles White, Mike Williams

**Others Present:** Lisa Silva, Allison Yeh, Johnny Wong – MPO; Sharon Snyder – Planning Commission; Chris Speese – FDOT; Allen Howell – Hillsborough County Public Works Department; Ray Chiaramonte - TBARTA

II. **PUBLIC COMMENT**

There were no public comments.

III. **APPROVAL OF MINUTES**

Approval of the January 24, 2018 minutes **(Kress-Weber)**. The motion passed unanimously.

IV. **ACTION ITEMS**

A. **2018 Title VI Nondiscrimination Plan Update (Johnny Wong, MPO)**

Dr. Wong, the newly appointed Title VI Coordinator, presented the Title VI non-discrimination plan update. Title VI of the Civil Rights Act requires all recipients and sub-recipients of federal financial funds from discriminating based on race, color or national origin. Executive Order 12898 directs agencies to identify and address disproportionately high and adverse effects on minority and low-income populations. The Hillsborough County MPO takes their non-discrimination plan even further and abides by federal statues such as the American Disability Act, Age Discrimination Act, etc. The Hillsborough County MPO assures that no person shall, on the grounds of race, color, national origin, sex, age, or disability, be excluded from participation in, be denied the benefits of, or otherwise subjected to discrimination under any MPO-sponsored program or activity.

The purpose of the Amendments is to reaffirm the MPO’s non-discrimination policy statement; update the data collection, reporting and analysis; create a new appendix to identify community groups that serve these protected populations; identify best practices and update the organizational chart. The MPO identified the environmental justice (EJ) areas, which are the top 20% of low-income, race and ethnicity areas disproportionate to the County median. The MPO also identifies Communities of Concern (low income, persons with disabilities, elderly, limited English proficiency, minorities, and zero vehicle households). The maps show where the protected populations are and what their status is. To engage with these Communities, the MPO maintains a database of neighborhood and civic groups, they go to where these communities are, proactively provide translations of key documents, recruit other language
assistance resources, facilitate mobility services and host meetings only at ADA-accessible locations.

The MPO determines the plans are equitable by using the GIS Overlay Analysis or the Tampa Bay Regional Planning Model. They also looked at recent examples of MPO plans and projects to identify what worked well and what could be improved. To identify Title VI issues, before the agency becomes non-compliance, the MPO will explore new analytical tools to demonstrate how investments affect access to jobs and healthcare; consider identifying equity baseline conditions and performance targets into the State of the System report; consider equity as a criterion in the TIP prioritization methodology; and develop a tool for planners to clearly understand the population demographics before beginning a project.

Discussions ensued asking Dr. Wong to present this update at a New Horizons meeting, which are held on the 2nd Thursday of the month, from 11:00 a.m. – 1:00 p.m. and if Dr. Wong acts as an advisor to Ms. Alden, MPO Executive Director.

**Motion:** Approve the 2018 Title VI Non-discrimination Plan Update. *(Weber-Jenkins)*. The motion passed unanimously.

V. **STATUS REPORTS**

A. **FY19 & FY20 UPWP – Call for Projects (Allison Yeh, MPO)**

Ms. Yeh presented the FY19 & FY20 Unified Planning Work Program (UPWP), which is updated every two years. This work program will be effective July 1, 2018 through June 30, 2020, documents federal and state funding for MPO, FDOT, HART and Commission for Transportation Disadvantaged (CTD), outlines major planning tasks and complies with federal and state rules.

Ms. Yeh explained the six major planning tasks and reviewed Systems and Corridor Planning (Task 2) and LRTP and Data Monitoring (Task 3). Ms. Yeh presented the development schedule and asked for project thoughts/suggestions by March 15th. Please email Mr. Reynolds or Ms. Yeh with thoughts/suggestions.

Discussions were held regarding if the MPO works with other transportation providers besides HART; what is the deadline for submitting suggestions; when a State road goes through an overlay district, could the overlay be tied into the context sensitive design; how the proposed baseball stadium will impact the streetcar line; Ms. Farrell will be presenting her observations of off ramp safety concerns to the Tampa Downtown Partnership; considering the streetcar lines are single track, the concern regarding the streetcar line could be added to the streetcar extension study; and the need for a pedestrian overpass along the Courtney Campbell Causeway at Rocky Point Road to gain access to the trail.

**Motion:** The LRC is proposing the following suggestions to the UPWP:

- Given FDOT’s Complete Street Screening Tool uses adopted local government overlays, and land use regulations to determine context (ex. Riverview Downtown along Hwy 301), perform an analysis of corridors countywide to determine if additional overlays/ regulations are needed for appropriate future context classification (i.e. transect);
- A study to determine impacts the proposed Rays Stadium will have on the existing streetcar;
- Study limited access roadway on/off ramps for additional safety measures to reduce conflicts with non-vehicular (pedestrian) traffic;
- A feasibility study for a trail overpass at Courtney Campbell Causeway and Rocky Point Drive.

(Jenkins – Weber). The motion passed unanimously.

B. Tampa Bay Next Quarterly Update (Chris Speese, FDOT)

Mr. Speese, Public Involvement and Bicycle/Pedestrian Coordinator for FDOT District 7, presented the Tampa Bay Next Quarterly Update. He reviewed the public engagements (what they’ve learned), new approaches (what they are doing about it), transit programs and interstate updates. From the beginning, FDOT has said that Tampa Bay Next (TBN) is about engaging the community to better understand what they can do to move transportation forward in Tampa Bay. FDOT has spent the past year going out to neighborhood association meetings, participating in community events, meeting with community members one-on-one, and hosting community working groups, all with the goal of getting a sense for what the community wants. Most comments have come from the downtown Tampa/urban core area, followed by the Westshore area. What FDOT has heard is people want help with daily traffic backups and bottlenecks, safety and bike/pedestrian issues, local and neighborhood concerns and transit.

FDOT has begun to take a fresh look at the way they look for transportation solutions and the way they study corridors. Solutions are not a one-size-fits-all and are not solely focused on the interstate system. FDOT has initiated corridor studies on important state roads in the area to expand focus on safety, traffic operations, innovation, complete streets, freight access and transit. FDOT is bringing its partners together to look at community needs and how they can best serve the communities. Mr. Speese gave examples of the new approach, focusing on the Downtown/Heights area.

FDOT invests in transit in three ways: funding for studies and research, formula-based grants (ongoing) and competitive grants (project-based).

Mr. Speese provided an update on FDOT owned historic properties. Safety and security checks have been conducted in the neighborhoods around these properties, and FDOT is working with each neighborhood to develop a plan for the properties. FDOT is also developing new downtown interchange options to eliminate/minimize future right of way expansion in historic areas.

Mr. Speese also discussed upcoming events, such as the Downtown/Urban Core Community Working Group (March 8th at Armature Works) and the Heights Mobility Study Workshop (late March/early April).

Discussion took place regarding the timeframe for developing the new downtown interchange options.

C. Regional Transit Feasibility Plan (Christopher Cochran, HART)

Mr. Cochran, Manager of Planning, presented the Regional Transit Feasibility Plan. He emphasized that HART is managing the plan but is not taking an advocacy position on this plan.

HART, along with their partners in Pinellas and Pasco Counties, are the Project Managers of the Plan and Jacobs Engineering is the Consultant. The plan was started about a year ago.
The team gathered data from the approximately 60 studies already conducted, defined projects and are in the process of vetting the findings to the public. The questions are: what are the projects to be built, how is it funded and who is responsible for building and maintaining it. The purpose of the Plan is to define and validate a regional transit vision, identify a catalyst that begins building the vision, and identify a catalyst that has the greatest potential to be built (compete for state and federal grants). The Plan is not another study or a replacement for the Long-Range Transportation Plan (LRTP) or a Transit Development Plan. The catalyst is not a replacement for future transit projects or the only transit recommendation for Tampa Bay.

Mr. Cochran reviewed the Regional Transit Vision results, the modes of transportation and the five evaluation alternatives and results, based on cost effectiveness. He discussed the value engineering for the project concepts along the various corridors.

The recommendation is for the I-275 shoulder running rubber tire, based on costs, right-of-way purchase is not needed, except for stations, and the time to construct. This recommendation supports and needs support from local services and plans, such as the PSTA Central Avenue BRT, City of Tampa Streetcar Extension and Modernization, USF and Westshore Circulators, and Wesley Chapel, USF, Tampa, Westshore, Gateway and St. Petersburg Intermodal Centers Study.

The agencies are in the process of the community vetting of the draft plan (spring/summer 2018) and will incorporate public comments to finalize the plan in the summer/fall 2018.

This presentation is available at www.TBRegionalTransit.com. All outreach activities are also on the website.

Discussions ensued regarding how to handle buses driving along the interstate shoulders where broken down vehicles may be; what the CSX corridor does for the Region; which of these projects will easily transition to autonomous vehicles in the future; redevelopment potential that might be available due to the streetcar expansion; and how to regionally fund transportation is a topic on the MPO Board meeting agenda.

Mr. Chiaramonte, Executive Director of TBARTA, offered his opinion on the Plan. He feels there is an important need for this Plan but it is doable.

VI. OLD BUSINESS & NEW BUSINESS

A. Next LRC Meeting March 21, 2018

Ms. Silva provided a flyer on a School Transportation Working Group presentation on March 28th, at 1:30 p.m. in the 26th floor Conference rooms. The State Coordinators for Safe Routes to School and the School Crossing Guard program are presenting. It is opened to the public and all are encouraged to attend.

Ms. Silva is working on arranging the field trip to Scott Street Complete Streets and the Selmon Greenway, but is waiting for the ribbon cutting ceremony for the Greenway.

Ms. Kress reminded the Committee this is Commuter Challenge week. She encouraged members to try a different mode of transportation to work, the grocery store, etc. The Tampa Downtown Partnership partnered with Plan Hillsborough this year and they make include other partners next year.
Ms. Mabilleau stated HART recently revised the Mission Max plans to improve bus routes.

Ms. Silva stated there are twenty spots still available for the Gulf Coast Safe Street Summit on February 27th.

Mr. Hey asked Ms. Silva for an update on the Dockless Bike Share bills. Ms. Silva stated the Committee made a motion to write a letter, which she drafted. She had conversations with the MPO’s and the City of Tampa’s lobbyists. Ms. Alden also briefed the MPO Board. There have since been amendments to the bills, which made improvements. Mr. Hey stated he heard it was dead in one of the chambers. Ms. Silva feels the MPO’s efforts made a positive impact. Mr. Cochran stated Mr. Trull said during the TAC meeting it is unlikely it will be voted on this session.

Ms. Silva stated the MPO is meeting with the same legislators over the summer to discuss Vision Zero, texting while driving, etc., and Dockless Bike Share will most likely be brought up.

VII. ADJOURNMENT

There being no further business, the meeting adjourned at 10:20 a.m.
Board & Committee Agenda Item

Agenda Item

Presenter
Brandon Berry, MPO Technician

Summary
Effective public engagement is critical to the MPO’s success. Engaging the community ensures MPO plans and products better reflect the public’s values and preferences. The Public Participation Plan helps balance the professional and technical expertise brought to projects with the community’s input. It helps the MPO gain the broad support needed to ensure that transportation plans and programs are implemented.

The Public Participation Plan (PPP) describes the MPO’s strategies and techniques to inform and engage the public in transportation planning issues, with the purpose of maximizing participation and effectiveness. At least once every two years, the MPO reviews its public participation efforts, using “measures of effectiveness” that fall into the following categories:

• Visibility & Productivity
• Participation Opportunities
• Public Interest & Feedback
• Input Results

The report reviews the MPO’s public engagement efforts during 2016 and 2017. Recommendations produced in this review will lead to amendments to the PPP and set the stage for engaging the public in the update of the Transportation Improvement Program and 2045 Long Range Transportation Plan.

Recommended Action
Recommend the MPO approve the Public Participation Plan: Measures of Effectiveness Report (2016-2017)

Prepared By
Brandon Berry

Attachments
The Hillsborough County MPO has been and continues to be fully compliant with federal and state requirements pertaining to public participation, including: §450.316, §450.322, §450.324, and §450.326 in Chapter 23 of the Code of Federal Regulations; Title VI of the Civil Rights Act of 1964; the Limited English Proficiency Executive Order 13166; Florida Statute 339.175; and The Sunshine Law.
Chapter 1: Introduction & History

Every other year since 1998, the Hillsborough County Metropolitan Planning Organization (MPO) has updated its Public Involvement Plan (PIP). The PIP identifies a proactive public participation process for the transportation planning products of the MPO. This process includes timely public notices, full access and input to key decisions, and support of early and continuing community involvement. Coinciding with the biennial update to the PIP, the MPO also assesses its effectiveness in implementing the participation plan.

The MPO has four major categories for measuring the effectiveness of public participation. These include:

- **Visibility & Productivity**: Visibility corresponds to the efforts and products the MPO produces to increase the agency’s engagement with the public. Productivity is the output of the MPO’s tasks.
- **Participation Opportunities**: Participation opportunities are the full extent of options the public has to interact with the MPO. These opportunities span in-person and virtual opportunities. The MPO measures the effectiveness of its participation opportunities not just in availability, but in whether the opportunities its produces and events it holds are accessible, time-sensitive, and understandable.
- **Public Interest & Feedback**: Public interest and feedback is collected through surveys, comment cards, emails, phonecalls, walk-ins, and other forms intended to provide a range of options for inclusion. To seize new opportunities to receive public input, the MPO has begun engaging with the public over social media and in event-specific chatrooms.
- **Input Results**: Input results are the direct and indirect impacts that public feedback has on the MPO’s reports, plans, and other activities.

Furthermore, the MPO measures its public participation with minorities, low-income individuals, and the transportation disadvantaged. These measures are often woven into the four major categories, such as tracking the number of notices published in non-English newspapers, distribution of the 2017 Ride Guide, and recording the number of events held in Environmental Justice areas.

**Table 1** below shows the major categories and corresponding metrics from the 2018 Title VI/Nondiscrimination Plan.

**Table 1**: Measures of Effectiveness for the Public Participation Plan (2016)

</tbody>
</table>

### History

In 1999, several evaluation measures were adopted by the MPO in response to the Federal Highway Administration’s requirement that the MPO develop a mechanism for evaluating the effectiveness of the PIP.

In 2005, the Safe, Accountable, Flexible, and Efficient Transportation Equity Act – A Legacy for Users (SAFETEA-LU) was enacted, carrying forward a strong federal emphasis on public participation programs. SAFETEA-LU included a number of major modifications, including conducting convenient and accessible public meetings, employing visualization techniques to describe plans, and making public information accessible in electronic formats. With regard to the Long Range Transportation Plan (LRTP), SAFETEA-LU also requires participation among users of pedestrian walkways, bicycle transportation facilities, and those with disabilities. The PIP was further amended and renamed the Public Participation Plan (PPP) in 2006.

In 2010, the MPO updated the PPP to more clearly define procedures for notification and public participation, including an extensive review of requirements, transportation terms and acronyms,
an expanded toolbox, and a new Limited English Proficiency (LEP) Plan. The 2010 PPP was amended in 2012 to incorporate new public involvement techniques and procedural requirements, and was adopted by the MPO along with an updated LEP Plan.

In 2014, the MPO amended its PPP to incorporate recommendations of its 2013 federal certification review, which called for simplifying the document and adding new tools. Revisions include the consolidation of the PlanHillsborough.org agency website, the expansion of MPO committees, the streamlined downloading of the PPP document from the PlanHillsborough.org website, and clarification of the public notice process for TIP amendments.

The passage of the Fixing America’s Surface Transportation (FAST) Act in 2015 has led to requirements for the solicitation of comments from public ports, tourism interests, and certain private transportation providers.

Also in 2015, the Florida Department of Transportation (FDOT) updated its MPO Program Management Handbook to fully incorporate principles of Environmental Justice (EJ) in programs and policies. This update came with two requirements for MPOs:

- Ensure and document early, continuous and meaningful opportunities for involvement by minority and low income communities; and
- Scrutinize demographic data to ensure that planning activities will not have disproportionately high or adverse impacts on underserved communities, and where impacts are unavoidable, that documented steps are taken to avoid, minimize or mitigate impacts.

**Refining the Public Participation Plan**

The MPO most recently updated its Public Participation Plan (PPP) in August 2016. This plan clarified the requirements, notices, procedures and strategies that the MPO undertakes in its public participation efforts. To refine the PPP process, the MPO recommended implementing periodic public involvement process surveys, updating the PPP at the outset of each Long Range Transportation Plan (LRTP) update, and enhancing the PPP.

A recommendation from the previous MOE report was that the PPP be updated in conjunction with, and at the outset of, each LRTP update. The PPP is in the process of being updated as of Spring 2018, and consultant tasks have been authorized to engage the public in the 2045 LRTP update at both the regional and countywide level.
Chapter 2: Public Participation

Guiding Principles

Effective public engagement is critical to the MPO’s success. Engaging the community ensures MPO plans and products better reflect the public’s values and preferences. The Public Participation Plan helps balance the professional and technical expertise brought to projects with the community’s input. It helps the MPO gain the broad support needed to ensure that transportation plans and programs are implemented.

The Public Participation Plan (PPP) describes the MPO’s strategies and techniques to engage the public in transportation planning issues, with the purpose of maximizing participation. The following principles, developed in conjunction with best practice standards for public involvement, guide the PPP.

Provide Opportunities for Involvement

Avenues for involvement will be open, meaningful and organized to provide an environment that encourages convenient public participation. The MPO will consider the needs of the public regarding accessibility, scheduling, location, format, and language of informational materials. This will allow for informed, constructive exchanges between the MPO and the public. Unfamiliar transportation terminology should be used as infrequently as possible, and when unavoidable should be clearly defined. Participants will be provided information so that they clearly understand the trade-offs involved in making transportation decisions, and will be encouraged to confront the many competing transportation objectives.

Be inclusive of constituencies

The MPO will identify potential stakeholders and other interested members of the public for its studies and projects, and will identify strategies to bring information about those studies and projects to identified groups. Efforts to reach new and existing constituencies will include continuing outreach to “Communities of Concern”, defined as communities which require special attention to facilitate their participation in the planning process. More information on how the MPO designates Communities of Concern may be found in the MPO’s 2018 Title VI/Nondiscrimination Plan.

The MPO will continue to engage neighborhoods and groups which may be affected by proposed projects. The MPO is constantly exploring new and creative techniques to better engage the audience in discussion throughout the planning process.

Be responsive to participants

MPO forums will facilitate discussion with the public while being respectful of everyone’s time. Informational materials will be clear, concise, and address the concerns of participants. This
information will be sufficiently detailed to allow citizens to form and express their independent views. The results of all public involvement activities will be documented and given full consideration in all MPO decision-making activities as well as conveyed to implementing agencies for their consideration.

*Provide a transparent and predictable process*

The planning process will be understandable and communicated to citizens well in advance of plan considerations. Citizens should know who makes the final decisions and the pathways for reaching those decisions. The consistency in the MPO participation process will allow staff, citizens, and officials to plan their time and effectively apply their resources.

*Be creative and flexible*

The direction and effectiveness of this program should be reviewed periodically to ensure that it meets the needs of the public and the MPO. This program should continue to evolve and include new avenues of communication to augment MPO public outreach efforts.

*Maximize exposure, minimize costs*

The MPO is committed to coordinating the public participation process with local, federal, and statewide public involvement processes whenever possible. The objective of this coordination is to enhance public consideration of issues, plans, and programs, while reducing redundancies and minimizing costs.

The measures of effectiveness (MOEs) used as part of the evaluation process under these six guiding principles fall into the following categories:

- Visibility & Productivity;
- Participation Opportunities;
- Public Interest & Feedback; and,
- Input Results.

At the conclusion of the review of MPO performance in each of these areas, there is an opportunity to refine the PPP process by formal amendment. Other opportunities to enhance performance may occur as a result of ongoing feedback, periodic surveys, or with the update of the PPP that accompanies the launch of each LRTP update.

In the following chapters, the MPO’s adopted quantifiable measures of effectiveness of its Public Participation Plan are denoted by headings like the one below:

**Content Heading**
Chapter 3: Measuring Visibility & Productivity

This chapter measures the visibility and productivity of MPO projects and reports during the 2016-2017 evaluation cycle. Visibility corresponds to the efforts and products the MPO produces to increase the agency’s engagement with the public. Productivity is the output of the MPO’s tasks.

Number of MPO publications produced

Each year the MPO produces plans, projects and studies outlined in its yearly Unified Planning Work Program (UPWP). The resulting documents are made available to the public as reports, technical memoranda, and maps. Feedback on these documents is solicited through public meetings, presentations to the MPO’s committees, and online engagement.

Overall, there were 36 reports and studies produced in the 2016-2017 cycle (Table 2).

MPO Publications Available Online

The MPO continues to maintain a strong presence on the internet to publicize plans, studies, regular meetings, and special meetings. All agenda packets for regular and committee meetings are posted to the PlanHillsborough.org website, typically one week before the meeting takes place. The PlanHillsborough.org website includes an archive of current and past newsletters dating back to 2011, as well as agenda packets for the current and past two calendar years.

During the 2016-2017 period, the MPO continually expanded its online library of completed and pending plans, studies, maps and documents covering the planning program. The MPO also disaggregated many recent reports by chapter to make website searches more relevant and help documents load faster. Table 3 shows the number of packets, documents, and newsletters available through the PlanHillsborough.org website as of the last days of 2016 and 2017.

MPO Outreach Products and Materials

Newsletters & Press Releases

The MPO continued its three separate eNews publications through July 2017:

- **Rubber Meets the Road**, a quarterly publication providing news about the MPO’s Transportation Improvement Program;
- **Walk Bike News**, a quarterly publication emphasizing livable roadways and complete streets planning;
- **Hillsborough Rides**, a quarterly publication focusing on transit and transportation disadvantaged services.

Beginning in August 2017, the Plan Hillsborough agency consolidated all five of its publications into one monthly newsletter titled **Connections to Tomorrow**. This newsletter contains featured stories covering topics of interest to the MPO’s advisory committees, along with an events schedule and archive of stories featuring Plan Hillsborough’s agencies. **Connections to Tomorrow** is archived on the PlanHillsborough.org website as well as on Constant Contact, an
email marketing platform. This allows viewers to click through to project pages and other sources of interest directly from within the website-hosted newsletter.

Virtual links to these newsletters are promoted online through Facebook and Twitter. The MPO honors requests for Spanish translations of its newsletters, which it began providing for each of its three newsletters from August 2016 to July 2017. Requests for Spanish translations of newsletters may be made via email or phone.

Newsletters and committee agenda packets continue to be sent via Constant Contact. Distribution through this method presents some significant advantages:

- Reduced printing and mailing costs
- Quicker access to information
- Allowing members of the public to easily subscribe to any or all mailing lists.
- Enables the MPO to generate statistics on how many recipients opened, clicked links, and forwarded newsletters.

Disadvantages include the potential that committee members or interested members of the public without internet access will be unable to view these materials. To mitigate this, the MPO provides printed agendas at the beginning of each committee meeting. The agency also provides a large-print version of its Transportation Disadvantaged Coordinating Board packet.

The five Connections to Tomorrow newsletters published in 2017 recorded a 24.6% average open rate, a slight drop from the 30% average recorded among the three separate agency newsletters in the 2014-2015 cycle. However, there is a greater number of subscribers to the Connections to Tomorrow newsletter compared to the three separate publications. Approximately 33% of newsletter viewers open the newsletters on their mobile devices, while 67% open them on their desktops.

Users can sign up to receive the Connections to Tomorrow newsletter via PlanHillsborough.org, by emailing or calling a staff member, or by signing up through a link included in newsletters shared online. The MPO offers an option for users to receive a Spanish version of the newsletter, which may be requested via phone or email.

As of December 2017, the mailing list database contained 7,107 mailing addresses, which amounts to approximately 16% more than during the previous evaluation period.

Table 4 displays statistics on the number of newsletters distributed via Constant Contact. Table 5 displays press releases over this period. Table 6 displays other notifications sent from 2016 to 2017.

Agendas produced for the MPO Board and committees

Agendas for regularly-scheduled Board meetings and committee meetings are sent to all members as well as those who have expressed interest in receiving agendas. Individuals can sign up for an agenda by emailing or calling a staff member at any time.

Over the 2016-2017 cycle, a total of 36,618 agendas were emailed to the MPO's email list.

Appendix 1 summarizes the statistics for all MPO meeting agendas sent during the 2016-2017 evaluation period.
Public information pieces

During the 2016-2017 cycle, the MPO continued to distribute public information pieces developed both in-house and in collaboration with other agencies. Public information pieces such as brochures and calendars provide the public useful information about plans and projects, examples of the MPO’s role in major transportation efforts across the county, and details on how citizens can get involved.

The MPO printed 1,500 copies of its 2016 State of the System Report, which identifies goals related to the condition of the county’s transportation network, during the 2016 to 2017 cycle. The agency also updated and distributed 4,700 copies of the Tampa Bay Area Regional Transportation Agency (TBARTA) MPO Chairs Coordinating Committee (CCC) Regional Multi-Use Trails brochure. In both 2016 and 2017, the agency developed a Year-in-Review calendar summarizing the MPO’s achievements over the prior year. The 2016 calendar had a distribution of 3,000 and the 2017 calendar a distribution of 1,000.

The Transportation Disadvantaged Coordinating Board, along with its counterparts at the Pasco and Pinellas MPOs, updated the region’s Ride Guide in 2017. The Ride Guide publicizes mobility options available to the transportation disadvantaged. A total of 3,000 copies of the updated Ride Guide were produced in 2017, and distributed at the Hillsborough, Pasco, and Pinellas MPO offices as well as through the Sunshine Line. Additionally, the Ride Guide is hosted on the agencies’ websites for download.

Promotional materials

To support the Vision Zero coalition’s efforts, the MPO created promotional materials to distribute to the public. Approximately 6,000 Vision Zero reflective slap-bands were distributed at fairs and events visited by the MPO, and provided to groups such as the Tampa Downtown Partnership for distribution at their own events. In August 2017, the MPO printed 6,000 Vision Zero-themed bumper stickers that drew focus to transportation safety efforts around several schools within Hillsborough County. The agency also produced a Vision Zero handout summarizing the importance of the initiative to Hillsborough County, which had a print run of 500. A May 2017 Bullard Parkway buffered bike lane painting event included 80 cans of green spray paint, which participants used to create a temporary buffered bike lane. A student video competition sponsored by the MPO to support Vision Zero received over 30 entries in early 2016, which concluded in February of that year with eight winning applicants.

Tables 7 and 8 summarize the MPO’s public information materials, and the promotional materials created to support Vision Zero.

Media Coverage of the MPO

Newspaper Advertisements and Public Notices

After the acquisition of The Tampa Tribune by The Tampa Bay Times in 2016, Hillsborough County is primarily served by The Tampa Bay Times. According to the 2017 Nielsen Scarborough Report, The Tampa Bay Times has a daily circulation of 240,216 and a Sunday circulation of 391,215.

The MPO continued placing public notices in The Tampa Tribune until April 2016, when it began publishing its notices in The Tampa Bay Times. For the MPO’s four-year federal certification review in 2017, the agency also published notices in Centro Tampa, a Spanish newsletter published by The Tampa Bay Times, and La Gaceta, a tri-lingual English, Spanish, and Italian newspaper. Centro Tampa has an estimated daily circulation of 52,000 and La Gaceta an estimated daily circulation of 18,000 as of the end of 2017. The public meeting notice for the MPO’s four-year federal certification review was also posted online, where interested parties who were unable to attend the meeting were provided a comment form in either English or Spanish.

In compliance with state requirements, the MPO continued advertising Transportation Disadvantaged Coordinating Board meetings in the Florida Administrative Register, published weekly on the internet free of charge by the Florida Department of State as a means of increasing public access to Florida government. Although the
publication does not provide readership numbers, two posts were made to this online source in 2016 and 2017. **Table 9** contains all the public hearing and meeting notices posted in newspapers by the MPO between 2016 and 2017. **Table 10** contains the circulation numbers for these publications.

**Sources:**
[3] Circulation numbers provided by newspapers (Feb 2018)

Advertisements and public notices placed in publications with minority audiences

Two meeting notices were placed in newspapers with minority populations during the 2016-2017 cycle: La Gaceta and Centro Tampa. The purpose of these notices was to seek citizen feedback on the federal certification review of the MPO taking place in April 2017.

Public Meeting notice signs

For the 2016 and 2017 TIP public hearings, the MPO placed notice signs in affected areas detailing the location, date and time.

Online Advertisements, Social Media, and Public Notices

According to Pew Research Center, nearly twice as many adults received their news online in 2016 as those who received it through a print newspaper\(^1\). To keep up with the changing news habits of the public, the MPO continued providing notices, announcements and information via email, Facebook, Twitter, and its regularly-updated website. Continuing from previous years, the MPO announced major projects and events on its PlanHillsborough.org home page, which become part of a news archive after the projects leave the front page.

Media Coverage of the MPO

By virtue of having elected officials serving on its board, and by providing a public forum in which to discuss transportation issues, the media frequently covers the MPO. A review of the NewsBank website, a website which archives all mentions of search terms in media, indicates that the Hillsborough MPO or its programs appeared in 66 articles in 2016 and 2017. This is a reduction of 11% from the previous 2014-2015 cycle. This reduction is likely due to the acquisition of The Tampa Tribune by The Tampa Bay Times in 2016. While The Tampa Tribune provided approximately 75% of the articles mentioning the MPO in the 2014-2015 cycle, it provided just 24% of those articles in the 2016-2017 cycle.

---

---
Articles primarily appeared in *The Tampa Bay Times* (45 articles) and *Tampa Tribune* (16 articles). The other newspapers in which the MPO was mentioned or quoted include *The Washington Post, Business Observer, The Bradenton Herald, The Post and Courier,* and *Dayton Daily News*. The latter two papers featured a story on the preparedness of the Tampa Bay area for a major hurricane, originally produced by *The Washington Post*. Additionally, MPO staff were interviewed and featured in ABC Action News and Bay News 9 segments covering Vision Zero.

Topics of articles in which the MPO appeared between 2016 and 2017 included the annual TIP hearings and related TBX/Tampa Bay NEXT projects, Hillsborough County’s Vision Zero initiative, the county’s preparedness for a major hurricane, and driverless vehicles.

**Meetings broadcast on television**

MPO public hearings are broadcast on Hillsborough Television (HTV), produced by Hillsborough County Government and available on major cable providers in the Hillsborough County area as well as on the web at http://www.hillsboroughcounty.org/HTVlive. All 22 of the MPO’s Board meetings were televised in 2016 and 2017, as well as its yearly Transportation Disadvantaged Coordinating Board public hearings. These meetings were broadcast live, and later rebroadcast throughout the corresponding month. First-plays and replays of televised MPO meetings are noticed on the online HTV calendar.

Although it is not possible to track exactly who views broadcasts of MPO hearings on HTV, estimates from the prior MOE report suggest that 33% of cable subscribers watch the channel. Of those viewers, approximate 60% prefer coverage of public meetings with elected officials, public affairs shows, and features about community history.

In August 2017, MPO staff created and began uploading MPO Board meetings to its YouTube channel. As of the end of 2017, this channel is a video archive of all four Board meetings held between August 2017 and December 2017. Combined with the 2017 TIP Public Hearing recorded on the Hillsborough County YouTube profile, these meetings have received approximately 450 total views as of the end of 2017. The 2017 TIP Public Hearing accounted for the majority of these views, which may be partially attributable to the relative newness of the MPO channel compared to the Hillsborough County channel. The MPO is making efforts to increase the viewership of its meetings and hearings for members of the public who cannot attend, including featuring a YouTube button prominently on the agency’s PlanHillsborough.org homepage.

**Summary of Achievements**

**New Opportunities for Public Engagement**

Expanding on processes first put in place in 2015, the MPO offered new online options for viewing and commenting at its Transportation Improvement Plan (TIP) public hearings in 2016 and 2017. Beginning in 2016, MPO staff implemented a GoToMeeting streaming platform that allowed the public to view the hearing and provide comments online in real-time. In 2017, this stream was
accompanied by a Facebook Live video stream and live viewing accessible through the Hillsborough County TV YouTube profile.

The MPO also greatly expanded the number of events at which staff had a presence in 2016 and 2017. In collaboration with the Hillsborough County School Board, the agency developed a School Transportation Working Group (STWG) in 2016 that provides the public opportunities to comment on issues of walk/bike safety and school transit.

**Important collaborative achievements**

Working in collaboration with other agencies increases the MPO’s exposure. Contributing organizations promote MPO projects and events because they are partially responsible for their success. The MPO continued its 2014-2015 collaborative activities into the 2016-2017 cycle, working with the Department of Health and Hillsborough County School Board on a range of new projects, and continued its USF fellowship program. In addition, through initiatives like Vision Zero, the MPO engaged new and diverse groups in its products. The following projects represent the major collaborative undertakings of the MPO in 2016 and 2017.

The MPO began work on the county’s Vision Zero initiative in 2016, which was brought to the MPO by a grassroots coalition of bicycle and pedestrian safety advocates led by Walk Bike Tampa. This initiative to reduce road deaths in Hillsborough County to zero drew in a coalition of over 25 public agencies, private companies, and non-profits. Representatives from participants across the coalition attended four workshops over a year-long span, and many members have continued to spread the word through participation in a speaker’s bureau and attendance at associated events. This initiative culminated in an Action Plan in Fall 2017.

The MPO Chairman created the School Transportation Working Group (STWG) committee in 2016, augmenting its efforts to enhance lines of communication between schools and transportation that began in 2015 by adding a Hillsborough County School Board (HCSB) member as a voting member of the MPO Board. STWG meets monthly to discuss topics such as traffic circulation, school-area speed zones, school busing, and other needs identified by associated councils, alliances and committees. In response to these issues and the removal of non-funded courtesy busing in 2017, the MPO initiated a School Safety Study to develop a priority methodology and assess school areas with high need for multimodal safety reviews.
Continuing from its efforts in 2015, the MPO engaged with the Planning Commission (PC) and Department of Health in Hillsborough County (DOH) to pursue healthier communities across the county. The MPO and DOH performed a health impact assessment of the *George Road Walk/Bike Connector and Complete Street Study*, and staff of the Planning Commission, DOH and MPO collaborated on a food access and community gardens project as a component of the Planning Commission’s Health in All Policies project in 2017. The MPO pursued its own Health in All Policies approach with DOH staff in 2017, which seeks to consider LRTP projects in the context of their health impacts on nearby populations. In addition, DOH worked with the MPO, Planning Commission, HART, and the City of Tampa on the Garden Steps project. Garden Steps is the group’s submission to the Aetna Foundation’s Healthiest Cities & Counties Challenge, which aims to establish community gardens in food deserts and evaluate conditions around garden sites.

The MPO has expanded involvement with District 7 of FDOT, with the agency producing a Citizens Transportation Academy video series answering common questions about transportation project funding, the metropolitan planning process, and congestion management strategies, among others. FDOT continues to fund projects from the MPO’s 2040 LRTP priorities, primarily through the agency’s Five Year Work Program. The MPO also participated in TBX meetings held by FDOT through the first half of 2016, and staff attended several of the Tampa Bay NEXT community working groups held across the region in 2017.

Hosted by the TBARTA MPO Chairs Coordinating Committee and the TMA Leadership Group, with sponsorship by the Hillsborough, Pinellas and Pasco MPOs, the Regional Planning & Coordination Best Practices Study kicked off in May 2017 with an event at Collaborative Labs in St. Petersburg. The event featured over 150 participants and sought to identify exploration factors and desired outcomes, as well as develop principles, for future exploration of regional transportation coordination. Participants broke into sixteen small groups to discuss these questions under one of four topic frames. At the end of the session, the participants reconvened and identified the top ten outcomes and most important guiding principles under each topic header.
Chapter 4: Measuring Participation Opportunities

Public input is a critical component of the success of the MPO's efforts, and the agency consistently evaluates its participation opportunities for convenience and accessibility to the public. A participation opportunity is a situation where a citizen can provide public input, either directly to staff or in a format such as a written or emailed comment that staff receives and responds to. Citizens can participate at a regularly-scheduled forum or community meeting, project workshops, events at which the MPO attends, online, or over the phone. During the 2016-2017 evaluation period, the MPO developed new opportunities and venues for the public to participate.

Participation at MPO Public Forums, Workshops and Community Meetings

As in years past, actively pursuing public outreach to obtain citizens’ feedback is a major priority for the MPO. The MPO is committed to providing multiple avenues for citizens to interact with the agency, in person, in ways that are convenient and sensitive to their available time.

The main paths to participation include attending a regularly-scheduled MPO or committee meeting, applying to become a member of an MPO committee, attending a public workshop on a specific topic sponsored by the MPO, and interacting with the MPO at fairs and exhibitions. In addition, from 2016 to 2017, the MPO expanded online opportunities for citizens to become aware, comment, and share information about transportation topics of interest.

All MPO board and advisory committee meetings from 2016 to 2017 were publicly noticed, open to the public, and provided opportunity for public comment. Public hearings were held during public meetings of the MPO Board and counted as one meeting during this cycle. Compared to the previous 2014-2015 reporting period, there was a 12% increase in attendance and 92% increase in public speakers at committee and MPO meetings in 2016-2017, due primarily to the continued interest in the TBX and Tampa Bay NEXT projects. Table 11 contains summary information of the committee meetings held in 2016 and 2017.

**Public Outreach Events at which displays, presentations, discussions and feedback occurred**

Beyond regularly-scheduled meetings, the MPO hosted or participated in 225 external public meetings or events in 2016 and 2017. This represents an increase of 34% from the previous period. Although the number of attendees at these events was not always available, at least 24,800 attendees were present at events that the MPO participated in. The MPO also began tracking the number of event participants that staff members interacted with in 2017. In that year, the MPO interacted with 2,593 attendees, or approximately 25% of those who attended events in which the MPO was present. In 2016 and 2017, the events with the highest number of attendees included:
Highest-Attended Events in 2016

1. Back to School Health Fair [August 6] (5,000 attendees)
2. Trick or Treat on the Riverwalk [October 29] (5,000 attendees)
3. Family Abilities Information Rallies [October 1] (1,000 attendees)
4. 2016 Neighborhood Conference [July 23] (500 attendees)
5. Clean Air Fair [May 5] (300 attendees)

Highest-Attended Events in 2017

1. School Choice Expo [November 3] (3,500 attendees)
2. Bloomingdale Fall Festival [October 28] (1,000 attendees)
3. All People’s Community Center Fair [October 7] (800 attendees)
4. 2017 Neighborhoods Conference [July 15] (300 attendees)
5. Innovations in Regional Transportation Summit [February 16] (200 attendees)

The complete list of events that MPO sponsored or participated in are located in Appendices 2 (2016) and 3 (2017).

Attendance at events in Environmental Justice (EJ) areas

Of the 225 meetings that the MPO hosted or participated in, at least 53 (23.6%) were held in EJ areas. EJ areas in Hillsborough County are census tracts one standard deviation above the county’s median in concentration of one or more of the following characteristics: low income, race, and ethnicity (Hispanic and Latino). Attendance at events held in EJ areas accounted for 34.7% (8,630 attendees) of attendance at events sponsored by or attended by the MPO during this period.

MPO Board and Committee Meeting Participation

Number and origin of participants

A total of 5,051 participants attended MPO Board and committee meetings in the 2016-2017 cycle.

Due to logistical constraints, a recommendation from the previous MOE to track the origin of public participants at MPO Board and committee meetings was not implemented in this period.

Public Turnout for the Transportation Improvement Program Annual Hearings (2016-2017)

The 2016 TIP public hearing attracted 395 attendees and 185 speakers, donors or commenters\(^2\), the highest numbers of any MPO public hearing in recent history, due primarily to continued intense interest in the Tampa Bay Express Lanes (TBX) Project. Attendance from the public was complemented by 139 posts on the 2016 MPO TIP Public Hearing Facebook event, nine phone calls, and 281 emails, although 159 of

\(^2\) Donors provided their time to allow a speaker to speak for longer. Commenters made written comments.
those emails (57%) were templated responses. The GoToMeeting virtual event also attracted over 70 comments on its live stream chat over the course of the event.

The 2017 TIP hearing attracted 147 attendees and 105 speakers, donors or commenters. There were 22 comments left on the 2017 MPO TIP Public Hearing Facebook event, 3 phone calls, and 33 emails. The GoToMeeting virtual event attracted 62 comments on the live stream chat over the course of the hearing.

**Number of persons on the MPO mailing list receiving regular agendas**

The number of individuals on the MPO mailing list who received regular agendas increased during the 2016-2017 cycle, largely due to growth in interest. In October 2017, the last month of the cycle in which all committee meetings were held, approximately 1,938 individuals received an agenda mailed through Constant Contact. This is a 33.8% increase from January 2016 (April 2016 for the School Transportation Working Group).

**Surveys, Draft Documents and Plans Available for Public Comment**

From 2016-2017 the MPO hosted nine surveys seeking comments from the public and its committees. These surveys included:

- **Human Services Transportation Needs** survey, to assist in identifying transportation service gaps for transportation disadvantaged populations within Hillsborough County (31 respondents).
- **Annual CTC Evaluation** surveys, to assess the reliability, service effectiveness, service efficiency, service availability, safety, and user input of Hillsborough County’s Community Transportation Coordinator (860 respondents in 2016 and 958 respondents in 2017).
- **Citizen evaluation** survey, to solicit feedback from the public on the service of MPO staff who assisted with questions or comments (13 respondents).
- **Walkability** survey to assess perceptions of the conduciveness of a route to pedestrian travel and determine perceptions of walkability (150 respondents).
- **MPO Committees Demographic Questionnaire** survey, to assess whether the MPO is meeting representative public involvement on its committees (41 respondents).
- **Brandon Corridors and Mixed-Use Centers** survey, to assess which development patterns citizens believe best accommodate expected growth in populations and jobs (701 respondents).
- **Northwest Hillsborough County Transit Study** survey, a collaboration between HART and the MPO, to collect feedback on transit improvements and respondent demographics (88 respondents).
- **Vision Zero Safety Concerns Map**, an online “Wikimapia” product, which allows members of the public to pinpoint locations of transportation-related safety concerns throughout the county (Over 400 respondents as of December 2017).
The MPO publishes all its reports online at PlanHillsborough.org. Prior to MPO Board adoption, these reports and documents are kept in draft status; once adopted, a date of adoption is added. At any time, visitors to a project page are encouraged to contact the project manager through an email link or send general questions to planner@plancom.org, which is then distributed to the appropriate staff member for response. Several project pages also contain links to surveys, off-site information pages, and public comment forms. The presence of these additional resources is determined by the needs of the project.

**Increasing Public Participation Efforts with Minorities, Low-Income Individuals, and the Transportation Disadvantaged**

**Ensuring the MOE report reflects representative public involvement**

The Public Participation Plan 2018 Update will be provided to a member of the public to review for readability.

**Developing maps with updated, community-specific demographic and socioeconomic data within the MPO’s geographic boundaries**

In conjunction with the Center for Urban Transportation Research at USF, MPO staff participated in the development of Communities of Concern maps during the 2016-2017 cycle. Communities of Concern supplements Environmental Justice as an expanded set of disadvantage-linked characteristics to acknowledge those who may face unique and often overwhelming obstacles related to transportation and engagement in MPO participation processes. A Community of Concern is any block group at least one standard deviation above the median in two or more of the following characteristics:

- Minority population
- Elderly population
- Limited English Proficiency population
- Disability
- Zero vehicle households
- Youth
- Income

Maps detailing the distribution of Communities of Concern and Environmental Justice populations are available in the MPO’s 2018 Title VI/Nondiscrimination Plan.

**Listing all MPO committee members’ demographic data**

As part of the 2016 Public Participation Plan, MPO staff collected demographic data to determine whether committee demography reflected that of Hillsborough County. The MPO distributed optional surveys to its committee members to determine committee representativeness. This survey yielded 41 responses and was published as an appendix to the 2016 Public Participation Plan.
Participation opportunities offered to American Indian entities

The MPO continued to ensure that tribe contacts received agenda packets and Transportation Improvement Plan documents in 2016 and 2017. These contacts also receive newsletters and invitations to participate in special surveys and studies. A staff member from the Seminole Tribe of Florida contacted the MPO after receiving the Transportation Improvement Program for 2017/18-2021/22 in July 2017 and requested future updates on these projects as well as consultation on any project requiring Section 106 consultation under the National Historic Preservation Act. The staff member further requested that the Tribal Historic Preservation Office be contacted if any archaeological, historical, or burial resources are inadvertently discovered. The MPO has taken steps to ensure that these requests are fulfilled in a complete and timely manner.
Chapter 5: Public Interest & Feedback

Feedback through Comment Cards, Surveys and Oral Comments

Feedback from the public was received via several sources in 2016-2017: community events, public hearings, meetings, comment cards, the PlanHillsborough.org website, walk-ins from visitors, phone calls, emails, Twitter, and Facebook.

The MPO received 13 comment cards related to the quality of staff services, speed of service, and satisfaction with information received during the 2016-2017 cycle. Overall, more than 85% of citizens rated their satisfaction in each of these metrics as “excellent”.

In 2016 and 2017 the MPO received approximately 450 emails and letters, with the clear majority being received in the lead-up to the annual TIP hearing. The most frequent topics of these comments included the TBX and Tampa Bay NEXT projects, traffic conditions on I-275, and the proposed widening of Lithia Pinecrest Road.

Annual Evaluation of the Community Transportation Coordinator (CTC)

Every year, an assessment of transportation disadvantaged services in Hillsborough County is undertaken to determine if these services are meeting client needs. The Transportation Disadvantaged Coordinating Board’s Evaluation Subcommittee developed two client satisfaction surveys and administers them to existing door-to-door and bus pass clients on an annual basis.

To encourage participation in this survey, the cover letter and survey questions are distributed in both English and Spanish, and pre-addressed postage-paid return envelopes are provided.

The 2016 CTC Evaluation Client survey received a total of 860 responses. The 2017 survey received 958 responses. With a 97% approval rating for 2016 and 96% approval for 2017, respondents generally felt satisfied with door-to-door transportation and believed it improved their independence and quality of life.

TIP Hearing Comment Content Analysis

To analyze written public comments on the TIP received during and prior to the 2016 and 2017 TIP hearings, staff employed NVivo qualitative data analysis software. This software is used to provide greater detail about the public’s opinions toward the content of the annual TIP. The results of these analyses were included in the addendum documents to the TIP in both 2016 and 2017.

Visitors to MPO websites and MPO documents

Internet and mobile connectivity of American citizens continued to grow over the two-year evaluation period. According to Pew Research, the percentage of American adults owning a cellphone has grown to 95% (from 92% in the previous evaluation period), and the percentage of mobile users who own a smartphone has grown to 77% (from 67%)\(^3\). Approximately 12% of American adults are smartphone-only users and do

---

not have broadband at home, and approximately 51% of the US population has no landline phone at home\(^4\).

Although internet connectivity is growing, citizens who make use of the internet to become involved with the MPO are not necessarily representative of the public at large. Therefore, while the MPO has expanded its online opportunities to connect with the agency, it has retained the use of traditional in-person, phone, and mail comment opportunities as well.

**Website Streamlining and Additions**

From 2016-2017, the MPO made improvements to usability on the PlanHillsborough.org website. Staff began to make report chapter titles more referential to promote more relevant search results. These reports are also often disaggregated by chapter on the website to help documents load faster for those with limited connections or low data capacities.

Additionally, the MPO has expanded the number of interactive maps its features on the PlanHillsborough.org website. The Planning Information Map App (PIMA) is updated yearly with new Transportation Improvement Program (TIP) projects, and the MPO continues to host a bicycle suitability map and a map of traffic count stations. In this evaluation period the MPO introduced a Vision Zero map application that allows members of the public to report and provide details about dangerous corridors and intersections across the county, and a Health Atlas that shows health and health-related information at a sub-county scale across Hillsborough County. The agency also supported Innovation Place (Ip) efforts in north Tampa through a Ip Development Activity map, which shows the redevelopment area, location of Ip partners, and status of developments.

The PlanHillsborough.org website continues to be updated to keep information on projects and meetings current. The front page includes a list of all upcoming MPO committee meetings and hearings, and a slider bar at the top of the page is updated frequently to feature new projects.

**Most Viewed Web Pages**

There were an estimated 439,538 webpage hits on PlanHillsborough.org across 2016 and 2017, and a 36% increase in page views between 2016 and 2017. This increase is partially attributable to the PlanHillsborough webpage’s hosting of interactive FEMA flood zone maps, which had 32,951 pageviews primarily during the days preceding landfall of Hurricane Irma in September 2017. This webpage was the highest-visited webpage on PlanHillsborough.org.

---

in 2017. However, even when subtracting out the FEMA flood zone maps webpage views, the number of webpage views increased by 18.3% between 2016 and 2017. The most visited MPO-related webpages in 2016 and 2017 are shown in Table 12.

The average website visitor spends 1 minute and 41 seconds on the webpage as of 2017, a slight increase from the 1 minute and 33 seconds in the previous reporting period.

Social Networks

The MPO continued to expand its use of social media in 2016 and 2017, including Facebook, Twitter, and YouTube. Social media was used to promote public notices, advance stories of transportation interest in Hillsborough County, and detail events.

Facebook

In 2010 the MPO established a Facebook page, which was joined by a Vision Zero Hillsborough page in December 2016. These pages are used to promote news stories, events, newsletters, and meetings of interest to the public. Combined, these pages have approximately 950 followers as of 2017. Public comments made on these pages were forwarded to MPO staff for response and shared with MPO Board members at the following Board meeting.

Continuing from 2015, the MPO hosted a Facebook event one week prior to each MPO Board meeting in 2016 and 2017. This event allowed the public to comment online and have their comments shared during the MPO Board meeting.

The @HillsboroughMPO Facebook page had 208 posts or shares in 2016-2017, resulting in over 95,000 impressions (timeline views) and nearly 3,000 engagements (likes, comments, shares and photo views) with users. The number of engagements made with users rose slightly (2.2%) between 2016 and 2017. Posts with the highest number of user engagements in 2016 and 2017 are shown in Table 13. The content of all Facebook posts made during this period are contained in Appendices 4 (2016) and 5 (2017).

Twitter

As with Facebook, the Hillsborough MPO continued utilizing Twitter to bring attention to transportation topics of interest, events, and notices. In December 2017 the Hillsborough MPO had 6,115 followers, an increase of 23% from the prior period. The Hillsborough MPO is one of the most followed MPOs in the country, with followers including citizens, elected officials, candidates, journalists, bloggers, local businesses, professionals, non-profits, advocates, and other planning organizations.

The @HillsboroughMPO Twitter account had 1,070 tweets between January 2016 and December 2017, and had approximately 2,000 profile visits per month in the same period. In several months of this evaluation cycle a Twitter post made or retweeted by the @HillsboroughMPO account had over 5,000 user impressions. The Hillsborough MPO was mentioned, on average, 100 times per month in tweets made or retweeted by others, with the number of mentions generally surging during the months leading up to the annual summer TIP hearing.
Chapter 6: Public Input Results

During this evaluation period the MPO continued to bolster current ways and determine new avenues to have meaningful input. Comments were received from a variety of sources, ranging from mobile and desktop devices to phone calls and letters. The MPO attempted to respond to all requests for information and questions in a timely manner. When appropriate, the MPO staff recommended that implementing agencies work closely with affected stakeholders to address specific needs or concerns associated with future projects.

Extensive public outreach efforts conducted for major initiatives and studies during 2016 and 2017 were designed to seek the public’s input early and continuously. Public and stakeholder involvement was crucial in identifying issues, developing goals and objectives, proposing alternatives, and prioritizing strategies. These efforts are to maximize the likelihood that final products have broad community support when brought to the MPO for adoption, and reduce the likelihood that plans and studies need to undertake extensive revisions. Some of the highlights of public input in the MPO’s initiatives and studies are summarized below.

Major MPO projects with substantial public input

**Vision Zero**

Setting a goal of reducing the number of severe crashes in Hillsborough County to zero, the staff of the MPO along with a coalition of over 25 partners spanning the public and private sectors hosted four workshops and multiple supporting events to create a Vision Zero Action Plan between 2016 and 2017. Hillsborough’s Vision Zero began as a grassroots effort by local roadway safety advocates, led by Walk Bike Tampa, who pushed for adoption of Vision Zero resolutions after the death of a Chamberlain High School student who was killed by a car when walking to school.

Public input was sought through an interactive safety concerns Wikimapia on the Vision Zero landing page, which has generated over 400 comments as of August 2017. Wikimapia allows users to add points to a map and describe those points, which are then visible to anyone else who visits that map. Public-identified hotspots show issues of unsafe driving, missing bicycle facilities and sidewalks, and unsafe speeds in areas throughout the county. Additional input was sought through feedback at workshops and a “share your story” feature online and in printed materials. Vision Zero had a presence at over 40 events hosted or attended by the MPO between 2016 and 2017, and staff distributed thousands of promotional and informational materials created to spread word about the initiative.
Vision Zero builds on and supports existing collaborations and citizen-led initiatives, such as the Paint the Intersection program which encourages communities to install traffic-calming murals at intersections and the School Safety Program which brings together FDOT, Hillsborough County, the MPO, Hillsborough County School Board, and Hillsborough County’s cities to perform road safety audits and identify safety strategies around schools. Vision Zero is coordinated with existing safe streets groups such as the Hillsborough Community Traffic Safety Team, Bike Walk Tampa Bay, and Walk Bike Tampa.

Between October 2016 and August 2017, the Vision Zero coalition hosted four public workshops to develop goals and actions for four action tracks. The Paint Saves Lives track pursued low-cost short-term investments in retrofitting and providing pop-up treatments for some of the highest-need corridors and intersections. One Message, Many Voices developed public education strategies and determined effective mediums for implementing those strategies. The Consistent and Fair track pursued community-level education and engineering to reduce dangerous behavior by all road users. The Future Will Not Be Like the Past track pursued changing professional culture that tends to perpetuate problems in the building of new roads and developments. The public, public officials, and representatives from the coalition attended Vision Zero’s four workshops to contribute to these action tracks and receive input from a diverse range of road users. The Vision Zero Action Plan, developed in 2017, features strategies and measures of success developed at the four workshop sessions.

To support the initiative, MPO staff participated in several public events related to Vision Zero. Staff participated in the May 2017 Ride of Silence in Curtis Hixon Park, honoring bicyclists who have been killed on roadways and bringing awareness to prevent future accidents. A Walk of Silence in October 2017 took a pedestrian focus, honoring Alexis Miranda and other pedestrian victims of traffic violence. Action Plan presentations to the Plant City Commission, City-County Planning Commission, Hillsborough MPO, Tampa City Council, City of Plant City, Bloomingdale Homeowners’ Association, Hillsborough County School Board, and FDOT District 7 offices permitted opportunities for additional public comment.

**Brandon Corridors & Mixed-Use Centers Pilot Project**

A collaboration between the Planning Commission and MPO, the Brandon Corridors & Mixed-Use Centers Pilot Project attracted hundreds of public comments and survey responses between late 2016 and 2017.

The purpose of the study was to coordinate land use and transportation planning along major corridors in the Brandon Study Area. In early 2017 community stakeholders were invited to participate in a survey to identify development patterns and rank mobility concerns within the Brandon Study Area, which acquired over 700 responses. These surveys revealed that the community preferred compact urban centers in the northwest of the study area along Brandon Boulevard, with connected urban centers elsewhere. Five community meetings followed, with two focused on the business community and three on the community at large. The final community engagement meeting on
October 30, 2017 attracted 125 residents, business owners, and interested parties. The public was also given opportunity to comment on the final study at any of the seven committee presentations held at the County Center Building in downtown Tampa, which are scheduled at various times and days throughout the week to enable maximum opportunities for public attendance.

Input from the public participation process had a significant impact on the final recommendations of the study. Stakeholder and business input for more frequent bus service, road widenings, intersection and pedestrian safety improvements, and better or new connections were directly adopted into final recommendations. An initial suggestion for a reversible lane along Bloomingdale Avenue was met with concern from the business community about safety for all users and the loss of ability to make left hand turns during peak hours, and was ultimately removed from the final series of recommendations in lieu of improvements to key intersections along Bloomingdale Ave.

**Bullard Parkway Complete Streets Study**

The Bullard Parkway Complete Streets Study was conducted in 2017 and sought to identify alternative options for all users of Bullard Parkway from 56th Street N to Morris Bridge Road. The study team conducted workshops and meetings with City of Temple Terrace staff and City Council, Hillsborough County staff, Hillsborough MPO staff, and residents and business owners in Temple Terrace.

These meetings and workshops, along with recorded comments collected throughout the study period, identified a list of improvement needs such as additional bicycle infrastructure along Woodard Bridge, wider bike lanes with more regular trash removal, and lowering speed limits from 78th Street to Woodard Bridge. Additional public recommendations for intersection changes at Riverchase Drive and golf cart usage along Bullard Parkway were considered within this project as well.

**Tampa Bay Express and Tampa Bay NEXT Projects**

From 2016-2017, FDOT continued work on a traffic management concept via dynamically-tolled express lanes to reduce congestion on I-275 and I-4. Initially called Tampa Bay Express (TBX), FDOT re-launched this initiative as Tampa Bay NEXT in 2017 due to calls for a more collaborative and transparent conversation about the project at the regional and community levels. This reset came with a re-consideration of dynamic express lanes along with other mobility concepts for I-275 and I-4 including a beltway, boulevard conversion, and elevated and reversible lanes.
The MPO participated in ten TBX community engagement meetings during the first half of 2016, drawing in participants from neighborhoods located within TBX study boundaries. Engagement continued in 2017 with additional community meetings as well as MPO attendance at FDOT’s community working group events, held twice for each of six impacted community areas identified by FDOT.

The MPO ensured that citizens had a variety of ways to submit public comment about the TIP hearings, including the TBX (in 2016) and Tampa Bay NEXT (in 2017) projects. Individuals could submit public comments to the MPO Facebook page, via a phone call, in emails to MPO members, at public workshop meetings, and in-person at the public TIP meeting. Turnout at the 2016 TIP hearing, when measured by attendance, number of comments submitted, and number of public speakers, was the highest of any MPO Board meeting in recent history. Numerous organizations arose around TBX and participated, including Sunshine Citizens, the StopTBX coalition, Transit Now Tampa Bay, and YesTBX.

As part of the appendix to the TIP documents adopted in 2016 and 2017, MPO staff performed a content analysis of emailed and in-person comments made at the respective TIP hearings. Of the 281 emailed comments submitted in 2016, 205 (73%) of the comments were in support and 70 (25%) were opposed. The remaining six emails (2%) were miscellaneous comments that did not express approval or disapproval for TBX. While these numbers suggest significant support for the then-TBX project, the analysis revealed that 76% of those supportive comments were templated responses. Of the 70 comments opposed, only 13% were templated. A content analysis of comments made at the June 22, 2016 public hearing revealed that, of 132 speakers, 39 (29.5%) supported TBX, 67 disapproved of TBX (51%), and 26 (19.5%) comments were neutral or critiqued the project but stopped short of outright approving or disapproving of the project.

In contrast, emailed comments leading up to the 2017 TIP hearing revealed a much more equal split in support (13) and disapproval (12). MPO staff continued to review the sentiment and themes of public comments at the 2017 public hearing, where there was significantly more disapproval for the project (45 speakers) than support for the project (10 speakers).

Among comments received, there were widely divergent reports of project costs, and a lack of public comments on specific phases. The analysis suggested that this missing information might be indicative of an uninformed public, or a public which lacks access to information about the project. Though collaboration with FDOT, such as the Citizens Academy online video series and the aforementioned regional workshops, both agencies have attempted to better communicate the estimated project costs, phases of the project, and clarify the roles of participants in the process.

The MPO Board voted 12-4 in 2016 to approve the 2016/2017-2020/2021 TIP, with the following conditions on inclusion of TBX:

- A structure of continued communication and feedback whereby FDOT officials regularly update the board on TBX, answer questions, and provide updates on mitigation efforts, community engagement, and status of the Project Development and Environment (PD&E) study.
- A presentation from FDOT on the Re-evaluation Study to the MPO prior to a Public Hearing in Spring 2017 to include considerations and commitments that FDOT is prepared to make, including toll lanes review, design elements, and formation of a community work
group, and that the document will remain open after the public hearing for a 14-day comment period to be followed by FDOT’s assessment of the public comments and input from the MPO, then finalizing the document before it is submitted for approval.

Additionally, the MPO Board requested additional information for making informed decisions in future years, including:

- A final study and report on human impacts and how to pay for replacing them, including a parcel map of all homes, apartments, and businesses, noting those that are considered affordable housing and how they are affected by the project.
- A final neighborhood mitigation plan for displaced residents and businesses, including design elements.
- Completed environmental impact studies for each segment, including the I-275/I-4 PD&E re-evaluation study.
- Traffic and revenue studies that would analyze and provide justification for toll lanes.
- Report on the FDOT-sponsored premium transit study conducted by HART, to include consideration of the CSX-owned rail corridors.
- Status updates on the Federal Civil Rights investigation of the TBX project.
- Losses to the City of Tampa in ad valorem tax revenue using FDOT’s most recent right-of-way acquisition map.
- Cost of operations and maintenance of any community impact mitigation treatments associated with TBX.
- Impact to air quality resulting from TBX prior to any MPO Board vote on funding for TBX segments 5, 6, 7, and 8.

The 2017/2018-2021/2022 TIP was adopted by a vote of 12 to 3 in June 2017.

In 2017, FDOT began a series of Tampa Bay NEXT Community Working Groups for six segments of the Tampa Bay region. The MPO participated in these events by presenting the MPO’s role and answering questions from the public. The Community Working Groups continue to meet to discuss the Tampa Bay NEXT process in 2018.

**Dale Mabry Pedestrian Overpass Technical Feasibility Analysis**

In 2017 the MPO studied the potential for a pedestrian overpass along Dale Mabry Highway crossing I-275. Developing several alternatives, the agency approached the Carver City-Lincoln Gardens Civic Association and the MPO’s committees to assist with assessing the alternatives. This input combined with technical analysis to ultimately recommend a connection directly south of I-275.
Northwest Hillsborough County Transit Study

A collaboration between HART and the MPO, the purpose of the Northwest Hillsborough County Transit Study was to evaluate transit service and characteristics in Northwest Hillsborough County and develop service improvements to tie into HART’s 2017 Transit Development Plan update. The public was engaged through outreach at the Northwest Transfer Center, Town ‘n’ Country Library, and Bravo! Supermarket, fliers left at libraries, HART staff engagement with passengers along study routes, and a link to the survey posted on the MPO’s website as well as sent to neighborhood associations and community groups within the area. This survey yielded 88 responses among respondents who are generally regular transit users.

Respondents to the survey favored an extension of Route 34 to Oldsmar, supported increased frequency along Route 16, were generally supportive of improvements along Route 61 LX, were favorable toward a new route on Ehrlich Road and Bearss Avenue, and supported first mile and last mile service. These results were incorporated into the report’s recommendations, listed below.

- Route 34 Increased Frequency and Extension to Oldsmar
- Route 16 Increase from 40-minute to 30-minute Headways
- Route 61 LX Realignment and Expansion to Pasco County
- New route on Ehrlich Road/Bearss Avenue

Walk-Bike Plan for the City of Tampa Phase V

Walk-Bike Phase V continued work begun in Phase III to develop a continuous perimeter trail linking downtown Tampa to eleven Tampa neighborhoods as well as the Hillsborough River. This study was unique among the MPO’s 2016-2017 studies as it was community-initiated, with the ten-neighborhood Green Artery Team providing much of the original support for the study. The MPO continued its public outreach efforts during and following the study phase, presenting trail options for public consideration. Walk-Bike Plan Phase V ultimately produced a continuous trail map based on user input and technical viability.
School Transportation Safety Study

The MPO began a School Safety Study in 2017 to identify and prioritize school areas in need of multimodal safety reviews. This study was preceded by a Getting to School Survey, which was distributed by the Hillsborough County School District to almost 200,000 households with school-aged children. The survey sought to determine demographics, aspects of the student’s commute, interest in commuting offerings, and student requests. The results of this survey, combined with other data such as the locations of Communities of Concern, school-area pedestrian and bicycle crash history, and the number of students residing in the area, helped to inform priorities for multimodal safety reviews. This study ultimately produced a list of ten school areas for further review, and input from parents, principals and school administrators. Field reviews and recommendations for safety improvements will be forthcoming in 2018.

Innovation Gateway Concept Plan

Between 2016 and 2017, the MPO worked alongside Innovation Place to refine visions for makeovers of the Fowler Avenue/I-275 and Busch Boulevard/I-275 interchanges into Innovation Gateways. In Phase I, the MPO developed preliminary design concepts for themed gateway statements at the intersections which communicated a sense of entry and innovation. Tasks in this phase involved brainstorming with the Innovation Alliance Board and Innovation District Master Plan Joint Planning Group Technical Committee, coordination with the FDOT District 7 Design Engineer related to the Community Aesthetic Features permit, preparing preliminary concepts for each interchange, developing a Preliminary Order of Magnitude Cost Estimate, and producing a final report.

The second phase of the Innovation Gateway Concept Plan sought to refine design concepts for the themed gateway statements. A public meeting was held in April 2017 in conjunction with presentations on the Fowler Avenue Streetscape project, where a sticker board allowed the public to vote on which 4 of the eleven enhancements they felt would be a priority for these interchanges. These sticker boards were also made available to the MPO’s BPAC, CAC, TAC, and LRC committees at their May 2017 meetings, the Innovation Place Advisory Board, and at the University Area Community Development Corporation’s Community Safety Action Plan Kick-Off event in June 2017. This public feedback culminated in a series of planned enhancements for the interchanges, including:

- Underbridge LED lighting
- Pedestrian lighting
- Enhanced crosswalks
- Public art
- Structural gateway elements
- Retaining walls and associated landscaping (at the I-275/Fowler interchange)
- Relocated/replaced CSX fence and associated art panels (at the I-275/Busch interchange)
- Extensive landscaping (at the I-275/Busch interchange)
Chapter 7: Refining the Public Participation Process

Periodic public involvement process surveys and citizen service feedback
In the past, the MPO has conducted periodic public involvement process surveys with its committees. Although the agency did not conduct any surveys of this nature in the 2016-2017 cycle, it continued to solicit general feedback from the public in situations where staff provided assistance in answering questions. MPO staff received 13 citizen evaluations between August 2016 and December 2017, with the majority (85%) rating the MPO’s overall quality of service with respect to other agencies and businesses as “excellent”.

Federal Certification Review
The Hillsborough MPO participated in its four-year federal certification review in April 2017, which ensures that the county remains eligible for federal funding for transportation improvements. The review, which was conducted by officials at the Federal Highway Administration, Federal Transit Administration and FDOT, positively cited the MPO for several “noteworthy practices”:

- Vision Zero plan
- Unique MPO activities in the Unified Planning Work Program
- Outreach and participation opportunities for the underserved
- Performance-based scenario planning in the LRTP
- Performance measures in the congestion management process
- Development of a planning information map for the TIP
- A screening tool for TIP priority projects in the TIP
- Leveraging resources, transportation goals and objectives in TMA regional coordination

The MPO did not receive any corrective actions in this review, but did receive public participation-related recommendations. These recommendations include evaluating the participation process to determine when a public meeting versus public hearing is necessary, adding an interactive planning acronym list to the Public Participation Plan, and updating the Title VI Inclusivity Plan.

The MPO responded to the latter recommendation by beginning to update its Title VI/Nondiscrimination Plan in late 2017. It reviewed its PPP and PlanHillsborough.org website to ensure that the differences between public hearings and meetings are expressed correctly, and will clarify those differences more explicitly in the 2018 PPP update. The MPO is currently exploring technological solutions for a searchable glossary of planning terms and acronyms, which the agency will implement in its 2045 LRTP update. The agency also implemented new software to present the 2040 LRTP online document in a “flip book” format, which allows the document to be searched with relevant search terms highlighted for the user.
New and existing regional participation opportunities

**Tampa Bay Transportation Management Area Leadership Group (TMA)**

The TMA Leadership Group is an advisory group comprising three members of the Hillsborough, Pasco, and Pinellas MPO boards as voting members, along with non-voting advisors from FDOT and TBARTA. The purpose of the Leadership Group is to develop regional consensus priorities for the TMA, including the allocation of federal and state funds. This group meets once every other month to discuss traffic movements between major cross-county transportation markets to ensure the Tampa Bay metropolitan area speaks with one voice on regional transportation prioritization issues and the use of financial resources. The TMA Leadership Group recommends regional priority projects on a recurring basis. All TMA meetings are open to the public and invite public comment.

**TBARTA West Central Florida MPO Chairs’ Coordinating Committee**

Tampa Bay Area Regional Transportation Authority (TBARTA) and the Central Florida MPO Chairs Coordinating Committee (CCC) continued work to align efforts and prevent duplication in creating a combined regional master plan and regional LRTP. The CCC was created by statute in 1993 to coordinate regionally-significant projects and decisions, and institute a conflict resolution process. The CCC Board includes the Chairs of the area’s five MPOs and one TPO, who are voting members, and non-voting members from FDOT Districts 1 and 7, the Florida Turnpike Enterprise, TBARTA, and the Central Florida, Tampa Bay, and Southwest Florida Regional Planning Councils. The CCC meets twice a year and approves current and future regional priority projects on an annual basis. All meetings are open to the public and invite public comment. In 2017, the Hillsborough MPO funded an update of the TBARTA CCC Regional PPP, expected to be completed in 2018.

**Regional Big Data Working Group**

The Hillsborough MPO began hosting a twice-annual Regional Big Data Working Group (RBDWG) in May 2017. The purpose of the RBDWG is to bring together transportation and ITS professionals to help collaboratively solve the Tampa Bay region’s transportation systems management and operations problems as well as tackle general data issues facing the region. The kickoff event in May 2017 attracted 21 attendees and discussed issues of multimodal transportation, spatial data analysis, and data management. The group is overseeing an effort to establish a data portal to compile and make transportation data available to the public.

**Follow-up on recommendations from the last Measures of Effectiveness report**

The previous MPO Measures of Effectiveness report covered the period of January 1, 2014 through December 31, 2015. Below are the recommendations from that report and their status.
1. **Seek feedback that is immediate and project specific**, by asking questions such as “was this informative and helpful to you?” at the conclusion of every survey or public meeting sponsored by the MPO. This would be in lieu of conducting periodic polls on the effectiveness of public engagement. *(Continued from 2012/2013 and 2014/2015 Measures of Effectiveness Reports.)*

The MPO strives to ask attendees at the end of every meeting whether the information provided was informative and helpful to them. This enables the MPO to refine its message to improve understanding and engagement with participants at subsequent meetings. Additional recommendations for obtaining and analyzing public feedback on specific projects is contained in Chapter 8: Summary, Results and Recommendations.

2. **Increase public participation efforts with minorities, low-income individuals, and the transportation disadvantaged.**

In late 2017 the MPO was in the final stages of producing an update to its Title VI/Nondiscrimination Plan. This update contains an evaluation of recent efforts undertaken to ensure representation and diversity among MPO committees and equity in the planning process. These efforts include county-wide mapping of environmental justice areas and disadvantaged demographics, as well as the recent designation of seats on the Citizens Advisory Committee to represent racial, ethnic, age and gender-based minority groups.

The MPO continued translating key documents into Spanish during the 2016-2017 cycle. These translated documents include the entirety of the 2040 LRTP, the adopted FY 16-17 and FY 17-18 TIP documents, the 2016 Public Participation Plan, and others. As part of the 2045 LRTP update, the MPO will translate key messaging and marketing materials into different dialects of Spanish. Translation will be provided for speakers of other non-English languages as requested.

Between December 2016 and February 2017, the MPO conducted a committee demographic questionnaire to collect information on the representativeness of its committees. This survey yielded 41 responses to questions regarding gender, age, race, disability status, and eligibility for governmental assistance as a proxy indicator for household income. The data culminated in a report assessing the MPO’s board and seven committees on composition of race and age for all eight of the MPO’s committees, and proportion of disabled persons on the Livable Roadways Committee, Bicycle and Pedestrian Advisory Committee, and Transportation Disadvantaged Coordinating Board.

The MPO will distribute a draft of the Public Participation Plan 2018 Update to a member of the public to review for inclusivity and readability, in addition to seeking feedback from its committees.
and subcommittees. This effort is to ensure that the report is understandable to a range of members of the public.

3. Continue to improve public participation and cooperation with our agency partners through **better education about the planning and project implementation processes**.

The MPO has strived to work closer with collaborating agencies to promote information about its role in the transportation planning process. Over the last two years the MPO has worked with the Florida Department of Transportation (FDOT) to provide the public with information about the LRTP, FDOT’s role, and the Tampa Bay NEXT proposal.

As a component of the agency’s Tampa Bay NEXT public engagement, FDOT has begun a webinar series called the Citizens Transportation Academy. This six-webinar series contains information on the metropolitan planning process, how transportation projects are funded, and regional transportation roles and responsibilities, among others. The content of these videos is derived from public priorities heard at FDOT’s Community Working Groups and public outreach events.

The public notices for the 2016 and 2017 TIP public hearings contained lists of major projects within the TIP that were derived from interest among the public. Furthermore, the MPO has published newsletter articles providing further detail about some of the most significant projects.

In addition, early-stage presentations on the MPO’s 2045 LRTP update have provided information about how the LRTP identifies priority projects for funding, how it derives from local comprehensive plans and identifies priorities for the TIP, how it is implemented through the FDOT Five Year Work Program and other capital improvement programs, and how it is coordinated with other regional MPOs. This information is intended to promote the value of this document and participation among members of the public in shaping regional transportation priorities. To kickstart the launch of the 2045 LRTP, a Poll Everywhere phone survey provided to the MPO’s committees in late 2017 helped to identify the drivers of change in affecting growth, strategies for accommodating population growth, and information on where to focus transportation resources.

4. **Continue to expand use of technology designed to facilitate public participation**, such as “virtual” meetings, workshops or hearings, and telephone call-in lines to enable the public to participate remotely from their home or workplace.

During the agency’s 2016 and 2017 annual TIP hearings, MPO staff continued utilizing an online GoToMeeting streaming platform that enabled viewers to view the hearing and provide comments in real-time. This effort joined a Facebook page launched prior to the hearing which allowed citizens to provide comments that would be distributed to MPO board members.

In June 2017, MPO staff launched a Facebook Live video stream which provided citizens an additional option to
remotely view and comment on the annual TIP public hearing. Furthermore, the event was streamed on YouTube via the Hillsborough County TV profile. These efforts complemented existing traditional opportunities to provide remote comment, such as a dedicated voicemail line for TIP comments and written, mailed input.

New layperson-friendly technology continued to be introduced in 2016 and 2017 to complement MPO outreach efforts. The public PIMA Mapping Tool, which allows citizens to view information about both mapped and unmapped TIP projects, relaunched in 2016 with usability improvements. The Vision Zero initiative used a citizen-driven safety concerns mapping tool, which allows users to pinpoint locations of missing sidewalks, missing or unsafe bike facilities, unsafe crossings, excessive driving speeds, and general opportunities for improvement. Users can add comments to these designations, providing additional detail for their concerns. As of December 2017, over 400 members of the public have provided safety concern information through this tool.

5. **Publicize interactive tools and comment forms available on MPO or project-specific web pages** to maximize public feedback.

Both social media and MPO newsletters were utilized to spread information about interactive tools, comment forms, and surveys during 2016 and 2017. Twitter and Facebook were used to promote the Brandon Corridors & Mixed-Use Centers Pilot Project public survey in early 2017, with many related Twitter posts receiving over 1,000 impressions contributing to a total of over 700 completed surveys. Twitter was also utilized to promote Facebook events to collect online comments regarding MPO Board public meetings. The MPO further provided social media support for comment pages on projects produced by partner agencies, such as retweeting FDOT’s 5 Year Work Program and HART’s 2017 “Mission MAX” bus route overhaul. Both the MPO’s newsletters and the later consolidated agency-wide newsletter contained links to provide comments on the Tampa-Hillsborough Greenways and Trails Plan Update, Brandon Corridors & Mixed-Use Centers Pilot Project survey, and other projects.

Vision Zero featured prominently in regional advertising efforts, including a radio PSA produced by Cox Media Group Tampa and student-produced videos on walk-bike safety. Brendan McLaughlin, formerly of ABC Action News, recorded a 45-second radio advertisement that encouraged listeners to visit PlanHillsborough.org to learn more about the initiative. This advertisement complemented media stories on TampaBay.com, 83DegreesMedia.com, and other news websites, as well as Vision Zero workshop coverage aired on local television stations such as Bay News 9 and ABC Action News. This
advertising helped to cause a surge in attendance across Vision Zero’s year-long workshop schedule, increasing the number of attendees from 50 at the first event to 80 at the fourth event. These multi-channel outreach efforts contributed to an increase in the number of community pledges, individuals interacting with the safety concern map, and has inspired several attendees to participate in a speaker’s bureau to spread the Vision Zero message at events across the county.
Chapter 8: Summary, Results & Recommendations

Notable Successes in Public Engagement

1. Vision Zero: Hillsborough County’s Vision Zero project was a successful collaboration between over 25 public and private entities, drawing in elected officials, the business community and citizens to determine how to reduce the county’s high number of fatal and severe injury-producing crashes to zero. Over 250 participants in four action tracks helped to shape the Action Plan, which was adopted by Hillsborough County and the cities of Tampa, Temple Terrace, and Plant City in 2017. Following intense support from the public and private businesses, Vision Zero continues to be supported by dozens of representatives from the coalition through a speaker’s bureau and pop-up events.

2. School Transportation Working Group (STWG): The MPO formed a School Transportation Working Group (STWG) comprised of school board members and elected officials aimed at tackling issues of traffic circulation, walk/bike safety, school-pools, and transit. This committee joins previous efforts aimed at enhancing the lines of communication between schools and the MPO, such as the addition of a Hillsborough County School Board member as a voting member of the MPO Board. STWG is a springboard for connecting the MPO with parents and students to get their input on planning issues such as school busing, safe routes to schools, and Vision Zero, among others. The MPO has collected input through STWG and a presence at school-related events such as the School Choice Expo, Parent University, and the Back to School Health Fair.

3. Continued FDOT Collaboration: The MPO and FDOT worked together to develop better educational materials and more thoroughly handle public requests for information through projects such as FDOT’s Citizens Transportation Academy.

Expanding the MPO’s following

The MPO continued to expand its engagement efforts with the public in 2016 and 2017, with more participants taking part in committee meetings and the MPO attending more events than ever before. The MPO’s 2016 TIP Public Hearing attracted 395 attendees, the highest of any MPO hearing in recent history. More members of the public followed and engaged with the MPO on Twitter and Facebook compared to the previous two-year period, and the number of subscribers to the agency’s online publications and notices grew as well.

The MPO once again received the All Star Award from Constant Contact, Inc. in 2016 and 2017. The All Star Award is provided to the top 10% of Constant Contact, Inc’s businesses and nonprofits, recognizing them for success in engaging their customers. Qualifications include consistently high open rates, click-through rates, and low bounce rates.

Making it Easier to Participate

The MPO continued to host committee meetings and events that took place on a variety of dates and times to ensure that the public had an opportunity to attend and comment. Both the 2016 and 2017 TIP Public Hearings took place in the evening, and the MPO operated a dedicated phone line in the week leading up to the event to allow the public to call in and leave comments. The MPO continued to operate Facebook event pages in the week leading up to the hearings to solicit comments on the TIP documents, and live streamed the event in 2017 alongside a public chatroom which allowed the public additional opportunities to comment. Both events were also
streamed through the Hillsborough TV public access channel and the online GoToMeeting streaming service.

On its PlanHillsborough.org website, the MPO began disaggregating reports by chapter to help documents load faster and make searches more relevant. It continued to keep its meeting calendar up to date with the latest information about hearings and meetings, and provided downloadable agenda packets for each of its meetings at least one week prior to their occurrence.

During the earliest stage of its 2045 LRTP update in late 2017, the MPO continued the use of live-audience polling technology to solicit feedback to questions about transportation priorities from public meeting audiences and MPO committees. This technology allows users to vote for priorities through their cellphones, and is being piloted for a wider rollout during later stages of the update. The MPO collected over 6,000 surveys during its 2040 LRTP update, and has reflected on that experience to boost the number and range of participants in its 2045 update.

Recommendations to Enhance the Public Participation Program

Based on this review, the MPO’s Public Participation Plan has worked effectively during the 2016-2017 cycle. As the MPO is committed to continuous improvement and making the best use of limited resources, the following refinements are recommended:

1. **Seek feedback that is immediate and project specific**, by asking questions such as “was this informative and helpful to you?” at the conclusion of every survey or public meeting sponsored by the MPO. This would be in lieu of conducting periodic polls on the effectiveness of public engagement. *(Continued from 2012/2013 and 2014/2015 Measures of Effectiveness Reports.)*

For this Measures of Effectiveness update, MPO staff conducted a content review of how other transportation planning agencies across the country solicit public feedback and evaluate their own outreach efforts. Some of the standout recommendations are listed below.

- Collect contact information and survey participants after the project to determine whether they found the effort engaging, whether their time was valued, if they understood the goal and their role, and whether they felt their contribution was reflected in the final project.
- Conduct occasional staff meetings to determine what worked, what did not, and what could be improved upon in future outreach efforts. This can be combined with the MPO’s existing periodic reviews of the public participation log.
- Evaluate the effectiveness of various outreach tools, such as the project website, newsletter and comment cards, at engaging participants. The most effective engagement tools may be used as a primary means for evaluating the effectiveness of project-specific outreach efforts.
- Ask event attendees whether any other members of the public should have been invited to the event.
- Keep a log of comments received from individuals living in a Community of Concern.
It is crucial that the public understand a project or initiative, their role, and how their feedback may influence the process and/or outcomes. Soliciting feedback at the end of a meeting, even if it is as simple as asking participants to raise their hand if they found the event informative and helpful, and how it could be made more so, can help to ensure that the public is fully engaged in the task at hand. The MPO may consider the size and type of the event to determine the degree of public effort these involvement techniques will entail.

2. **Utilize new technology to inform** both a broader and more targeted range of participants about a plan, study or initiative taking place in their area.

Technology such as geofencing, which can send a text message or application pop-up when a user enters a defined transportation project area, or peer-to-peer messaging can be utilized to solicit greater public involvement in MPO projects and initiatives. Assuming user consent, these messages can be helpful at informing the public about a project and how to get involved. These techniques may supplement existing efforts, such as posting public hearing signs near project locations, to lead a greater proportion of the public to participate in the MPO’s studies.

3. **Promote a unified message for responding to citizen questions and concerns** about the 2045 LRTP, Regional Transit Feasibility Plan (RTFP), and Tampa Bay NEXT.

Citizens often cannot distinguish between various transportation planning initiatives, or see planning conducted by different agencies as an opportunity to engage with an amorphous “government.” MPO staff should develop a unified message, as well as coordinate resources with other agencies, to ensure that attendees at any meeting related to the 2045 LRTP, RTFP, and Tampa Bay NEXT can pose questions or comments on any of the three projects addressed. As these efforts are closely tied together, both in visibility and citizen engagement, citizens may have questions about one project that is a component of another. Therefore, the agency should develop a message and process to ensure that citizen input can be addressed in a standard format at any event related to the three projects.

4. **Coordinate data products** with FDOT and other agencies.

The PIMA Mapping Tool hosted by Plan Hillsborough contains many of the same projects as FDOT District 7’s own mapping tool for projects in their five-year work program, although PIMA also includes local projects. The MPO may benefit from reduced overlap and better coordination among products by holding more frequent debriefs with FDOT and any other agencies that provide data product tools. The MPO may also benefit from developing a way to enable the public to submit comments on specific projects in PIMA.

5. **Provide a glossary of acronyms and reduce acronym use** for major planning documents and in presentations.
To increase readability among the public, the MPO may benefit by decreasing the use of acronyms in documents and/or provide a link to a glossary explaining these terms in every major planning document. The MPO may also consider phasing out the use of acronyms in documents intended for the public.

6. **Empower individuals from the community through training and/or one-on-one sessions.**

To improve communication with the public regarding MPO processes and as a means of relationship-building, the MPO might consider offering additional training, orientations, and one-on-one learning opportunities. Continuing the Citizens Transportation Academy on a permanent basis may be one option to kickstart these enhanced learning opportunities. In the MPO staff’s volunteer activities, such as their yearly participation in the Women Build project, staff may consider drawing from a volunteer list of public participants to engage in fun and meaningful community-building activities.

7. ** Routinely research best practices** on how to engage and empower the community, craft program messaging, conducting meeting in a way that makes individuals feel valued, and solicit feedback to incorporate best practices into current practices.

The MPO might develop internal reviews of how their programs are being perceived by the community, construct metrics of engagement, and solicit both internal and public feedback to determine how to incorporate best practices into current practices. Focus groups are one way to determine public messaging and evaluate engagement efforts, and can also be a way to further communicate MPO processes.

8. **Continue utilizing and seek new avenues for the use of social media**, including Facebook and Twitter.

The MPO has continued to grow the number of user interactions with its Facebook and Twitter accounts over the prior cycle, and notably launched a Vision Zero page in late 2016. The MPO should consider new ways to engage the public in this technology, and explore other uses for social media in reaching the public. Furthermore, as neighborhood and civic organizations are often not meeting as frequently as they have in the past, the MPO may consider utilizing neighborhood-based networking services to connect with the public on a recurring basis.
Board & Committee Agenda Item

**Agenda Item**
LRC Transit User

**Presenter**
Lisa Silva

**Summary**
Gus Ignas has applied as Transit user member for Livable Roadway Committee. His county department supervisor had approved him to participate. Gus regularly and frequently uses transit and his bicycle to get around Tampa Bay.

**Recommended Action**
Approve membership and recommend approval to the MPO Board.

**Prepared By**
Lisa K. Silva, AICP, PLA

**Attachments**
Application
1. Which Board or Committee are you interested in? **Livable Roadways Committee (LRC)**

2. My name is: **Gus Ignas**

3. My email address is **ignasg@hcflgov.net**

4. My current place of employment is **BOCC Hillsborough County**, 601 E. Kennedy Blvd., 17th Fl - HR, Tampa FL 33602, 813.276.2841

5. I reside at 5055 S. Dale Mabry Hwy #237, Tampa FL 33611, **727.643.5623**

6. I prefer to be contacted and receive documents at **Home**

7. Gender : **Male**

8. Race : **White / non-Hispanic**

10. US Citizen : **Yes**

11. I have a disability : **No**

11. Felony or misdemeanor offense : **No**

13. Registered voter : **Yes**

14. Receive Medicaid, SSI or WIC benefits? **No**

15. Resident of Hillsborough County since : **10/02/2001**

16. Education :

   High School : **St. Joseph’s Prep Phila PA 1980**

   Secondary : **Name, Location, Dates attended, Degrees Villanova University, Villanova PA, 8/1981-5/1986, BA General Johns Hopkins University, Baltimore MD, 7/16-present, Certification in Data Science**
17. Professional license or certificate: Yes

FL Insurance Lic 215 (Life, Health & variable Annuity) 2007-2014

18. Qualification: I am a longtime non-car owner, with intermittent periods of car ownership. I walk, bike, ride mass transit, ride-share, car-share, lease cars which gives me a unique view to the Tampa Bay transportation situation.

19. Schedule conflicts: No,

20. Organizations I am a member of:

21. Selling goods and services to Hillsborough County, Tampa, Temple Terrace or Plant City: No

Agenda Item
Invision Tampa Streetcar Study

Presenter
Milton Martinez, P.E., City of Tampa

Summary
The City of Tampa is conducting the InVision: Tampa Streetcar Feasibility Study to evaluate modernizing and extending the Tampa Historic Streetcar system. The study is designed to advance mobility, livability, and economic development goals presented in the InVision: Tampa Center City Plan and build on recent and on-going studies assessing transportation needs in the City and region.

Based on detailed evaluation of seven alignment options and extensive public engagement, the City identified a north-south corridor through the heart of downtown to Marion Transit Center and north to Tampa Heights as the preferred option for the extension of enhanced transit service. The alignment options within the corridor include either Franklin Street or the Tampa St/Florida Avenue couplet. The project also includes modernization of the existing historic streetcar system with upgrades to vehicles, stations, and systems, to allow for the delivery of higher quality and more frequent service.

Next, the City will work with the community to prepare more detailed plans for the preferred corridor, modernization of the existing system, and implementation of improved service quality. As part of this effort, the City will evaluate community and environmental impacts, define funding sources, and a timetable for implementation of the initial phase of investment.

Recommended Action
None; for information only.

Project Handout and Map
Next Steps in the Study

During project development phase of the study beginning in 2018, the City will work with the community to prepare more detailed plans for the preferred corridor, modernization of the existing system, and implementation of improved service quality. As part of this effort, the City will evaluate community and environmental impacts, define funding sources, and a timetable for implementation of the initial phase of investment.

The City also will evaluate alternative vehicle technologies including a comparison between using the existing heritage vehicles, introducing new modern streetcars, using conventional rubber tire vehicles, or replacing the existing fixed rail system with some form of rubber tire conventional or autonomous transit vehicle technology.

The implementation plan and funding strategy will consider integration with other elements of the local and regional transit and mobility network, as well as with the findings and recommendations of the Regional Transit Feasibility Plan, the Heights Mobility Study, the Intermodal Facilities Study, and the Tampa Bay NEXT program.

Project Highlights

**PREFERRED ALIGNMENT OPTIONS**

**Modernization and Extension**

The City of Tampa is conducting the InVision: Tampa Streetcar Feasibility Study to evaluate modernizing and extending the Tampa Historic Streetcar system. The study is designed to advance mobility, livability, and economic development goals presented in the InVision: Tampa Center City Plan and build on recent and on-going studies assessing transportation needs in the City and region.

**Preferred Extension & Modernization**

Based on detailed evaluation of seven alignment options and extensive public engagement, the City identified a north-south corridor through the heart of downtown to Marion Transit Center and north to Tampa Heights as the preferred option for the extension of enhanced transit service. (See Map) The project also includes modernization of the existing historic streetcar system, with upgrades to vehicles, stations, and systems, to allow for the delivery of higher quality and more frequent service.

The intent is that the existing system plus the initial extension will be designed to provide a “one seat” trip from start to end, maximize the exclusive transit guideway operations to allow vehicles to bypass congestion, and offer full-day and evening operations with 15-minute frequencies.

**Benefits of Enhanced Transit**

The introduction of enhanced transit service along both the preferred corridor and the existing system offers a number of important benefits to the City, including the following:

> Direct connections between employment destinations in the Downtown Core, rapidly developing areas in the north end of downtown and Tampa Heights, new development at Water Street Tampa, and existing urban neighborhoods in the Channel District, Harbour Island, and Ybor City;

> Convenient connections to popular cultural and entertainment destinations including the Amalie Arena, Tampa Museum of Art, Glazer Children’s Museum, Tampa Aquarium, Tampa Theater, Tampa Convention Center, and the Straz Center for the Performing Arts;

> First mile/last mile connections to local and regional transit service at the Marion Transit Center and the planned site of a regional intermodal center south of the downtown interchange; and

> Improved access to major public spaces and event venues, including Cotanchobee Park, the Riverwalk, Curtis Hixon Park, Waterworks Park, and the soon to be completed Julian B. Lane Park on the east side of the Laurel Street Bridge.

**System Modernization**

New transit vehicles
Upgrades to existing track and stations
Improved service frequency
Longer service hours
Cost: $68.5 Million*

*costs assume modern streetcar operations

**Preferred Extension**

1.3 mile extension through the Downtown Core
Links to existing and planned regional transit
Serves 16,000 jobs and 5,500 residents (extension only)
Connects major entertainment and cultural venues
Cost: $95 Million*

*costs assume modern streetcar operations

**Project Timeline**

**PHASE 1 - PROJECT FEASIBILITY**

Spring to Fall 2017

> Context & Assessment
> Purpose & Need
> Alignment Evaluation
> Preferred Alignment & Modernization

**PHASE 2 - PROJECT DEVELOPMENT**

Winter 2017 to Winter 2018

> Request to FTA for Entry into Project Development
> Transit Mode Evaluation
> Alignment Planning & Design
> Modernization Planning & Design
> Costs & Ridership
> Impact Assessment
> Funding & Implementation

Project information

Project information is available for review on the City of Tampa website at: www.tampagov.net/streetcar
Hillsborough 2040 Long Range Transportation Plan and Transit Assets and Opportunities Study; establishes a strong foundation for future extensions of the system. Future extensions could provide connections as follows (see inset map):

- An extension to the west across the Hillsborough River along or within the I-275 corridor could provide a critical regional connection to the Westshore Intermodal Center and potentially to the Tampa International Airport as defined in the Hillsborough MPO’s Imagine Hillsborough 2040 Long Range Transportation Plan and Transit Assets and Opportunities Study;
- Extensions to the east could create a looping service connecting to the existing system in Ybor City or the Channel District; and
- Extensions to the north could provide connections to northern areas of Tampa Heights, Seminole Heights, and potentially further north to the USF Area.

Depending on the outcome of the Regional Transit Feasibility Plan, which is assessing the feasibility of regional connections between Downtown Tampa, Westshore, the USF Area, and other regional destinations, detailed planning and evaluation of extensions beyond the initial extension will be completed.

Potential Future Extensions
Board & Committee Agenda Item

**Agenda Item**
Vision Zero Quarterly Report

**Presenter**
Gena Torres, MPO Staff

**Summary**
Tracking progress toward reducing deaths and serious injuries on our roadways is an important part of the Vision Zero Action Plan. There are several performance measures for each of the action tracks, the most meaningful of which will be the reduction in fatal and incapacitating crashes. The most recent three months of crashes will be reported and mapped by crash type and shared with the MPO committees and Board every quarter to track progress. Highlights from Vision Zero initiatives underway will also be presented.

Similar to the MPO’s quarterly reporting, the FDOT District 7 Secretary, David Gwynn, has prepared bi-weekly traffic fatality reports with the names and pictures of those who have been killed as a way to humanize this serious issue. The first two reports are attached.

**Recommended Action**
None. For information only.

**Prepared By**
Gena Torres

FDOT District 7 Secretary Bi-Weekly Traffic Fatality Report and email
Good afternoon

Today I am sending out our first bi-weekly report of fatalities that have occurred on District 7 roadways. For the reporting period of mid-October to early November there were 21 people who lost their lives in vehicle crashes. The report has a word file that provides the name, age and a brief description of the person and accident. You will see links in blue and green that you can click on that will open either a news report about the fatal crash or an obituary for the deceased.

You may ask why we are sending this out to all staff. After all, we all hear about the number of fatalities and the number of crashes as we do our daily work and when we read the paper or watch the news. For many of you, analyzing crash statistics is part of your job. That is a good question.

What I hope to accomplish by sending out these bi-weekly report is to provide a more human element to the problem. Picture 21 people sitting in a room, and realize that we lose that many on average every two weeks. As you read about these folks you will see that they are no different from any of us. Some were mothers or fathers, some were children, some loved to fish or spend time with their children. It could easily be someone you know. In fact one of the people in this report was a consultant that did a lot of good work for the Department. Some were walking or biking, some were on motorcycles, and others were driving or a passenger in a car. But 21 real people were ripped from their family and left a gaping hole in the lives of their loved ones.

As you read through this report try to remind yourself that each of the 21 people probably woke up that morning with goals and dreams just like each of us do, and never imagined that they would never return home again. And then remember that we, the FDOT team, have an obligation to constantly look for ways to make improvements to our roadways that might lower the number of people who die on them.

Thank you for your time to read this report and for taking the time to care about saving lives, which is the first and highest mission of FDOT.

David W. Gwynn, P.E.
District Seven Secretary

District Seven’s Bi-Weekly Crash Report Update - A Summary of Traffic Fatalities that has occurred on public highways in the Tampa Bay Region. For more information, please note names of victims highlighted in blue are hyperlinked to news stories as published by the media and text highlighted in green are hyperlinked to obituaries as available. “Safety Doesn’t Happen by Accident.”

November 4, 2017

Frederick E. Grayson, 55, Bradenton: A motorcyclist died Saturday (Nov. 4) after he was thrown off his bike during a crash on U.S. 41. Frederick E. Grayson, 55, of Bradenton, died at the scene. He was not wearing a helmet.

Corey Lee Pierce, 28, Lakeland: Corey Lee Pierce, 28, of Bartow was traveling southbound on Ponce de Leon, when for unknown reasons, he lost control of his car, which left the roadway, overturned and collided with a palm tree. He loved fishing and big Seminoles Fan.

November 2, 2017

David W. Taulbee, 57, Spring Hill: A 57-year-old Spring Hill man was killed in a car crash Thursday night, according to the Florida Highway Patrol. David Taulbee traveled into the opposite lane about 7:50 p.m. while approaching a curve on California Street near Old California Street.

November 1, 2017

Levi Brodie Forsyth, 38, St. Petersburg: Levi Brodie Forsyth, 38, was walking in a travel lane near the intersection of 54th Avenue N and Haines Road when he was struck by an unknown vehicle, propelling him into the path of a 2015 Ford Edge.

Jessica Pepin, 29, Clearwater: Police said Ms. Pepin tried to cross Belcher headed east when she entered the travel path of a 2017 Toyota being driven south on Belcher.

October 31, 2017

Kasey Gibson, 27, St. Petersburg: “She was trying to get home, so she could get her kids up in the morning so she could go to school, so they could come in from school so they could go trick-or-treating.”

October 29, 2017

Mostafa Mohammed Abdalla, 19, Tampa: "He was my best friend, my right hand, my shoulder and his shoulder to cry on. I know he was lying on the street fighting for his life.”

October 28, 2017

Brian Drozdowski, 31, Brandon: Deputies said Mr. Drozdowski was riding his 1998 Harley Sportster, southbound on 78th when he crossed over the center line and struck a Ford F-250.

Stephen John Matava, 56, New Port Richey: Stephen Matava Jr., 56, of New Port Richey, was walking across US 19, just south of Saltwater Boulevard. Three vehicles were traveling northbound on the road. Matava traveled into the path of oncoming traffic and all three vehicles collided with him.

October 26, 2017

Jeffrey K. Gommier, 50, Dade City: The truck left the roadway and traveled onto the shoulder where it hit a railroad service ladder, other railroad utilities and the railroad tracks causing the truck to overturn multiple times, troopers said.
October 24, 2017

Lacey Del Jones, 21, Tampa: Lacey Del Jones was driving a 2017 Chevrolet Camaro northbound on McIntosh Road, and when she turned left onto U.S. 301, came into the path of a 2003 Dodge Ram. She loved being an aunt to two nephews.

October 23, 2017

Howard William Hawkins Jr., 50, Zephyrhills: "He was a huge part of our company," DeStefano said. "Everyone is grieving. He was by far one of the hardest working people I've ever met."

Marcellus Andre “Shack” Shackelford II, 38, Tampa: Shackelford had taught math at Wesley Chapel High School since 2016. He also coached the junior varsity girls basketball team. On Monday, students made cards and signed a banner for his wife and two children, said Linda Cobbe, spokeswoman for Pasco County Schools.

Paul A. Davis, 65, New Port Richey: The pickup left the rain-slicked road and collided with a raised concrete curb and sidewalk. It then struck aluminum railings and overturned onto the shoulder where it came to rest.

October 21, 2017

William “Bill” A. Reger, 68, Lutz: James Clairvil started to make a U-turn at County Line Road, into Reger’s path, according to an FHP report. As the semi turned around, Reger’s Blazer crashed into the trailer, lodging itself underneath.

October 20, 2017

Tyler Sheeks, 19, Hudson: The Florida Highway Patrol says it was a gray Ford F-150 that struck and killed 19-year-old Tyler Michael Sheeks, who was walking westbound on Bolton Avenue, shortly before 9 p.m. He recently became a father to daughter, Isabella.

October 18, 2017

Antonio Pascual, 45, Brandon: Pascual was hit about 3:40 a.m. while riding on the exit ramp from eastbound Interstate 4 to U.S. 301, the Highway Patrol said. He was thrown from his bicycle and died at the scene.

Jordan Woods, 21, Trinity: “He enjoyed playing baseball, soccer, basketball and football. He also enjoyed fishing. His favorite activity was simply spending time with his friends.”

October 15, 2017

Jessica Guevara, 28, Brandon: “She was very caring, she did everything for the kids.”

October 14, 2017

Steven Gerena, 50, and Trudy Gerena, 53, Brandon: “I can say for staff that no kinder or gentler person [Trudy] have we ever known. She was a person who could take a hornet’s nest and turn it into a flock of butterflies. We’re going to miss her. I’m going to miss my friend."

October 13, 2017

Dina Marie Towers, 24, Lecanto: Troopers say 24-year-old Dina Towers of Homosassa was walking east along the outer roadway in the westbound lane when an unknown vehicle headed west hit her.

To: D7-outlook users <D7-outlookusers@dot.state.fl.us>  
Subject: Bi-Weekly Traffic Fatality Report

The first two weeks of 2018 unfortunately followed trends similar to 2017, and we had 16 people die on the roads within District 7 during the first two weeks of the year. Again we had a mixture of crash types with four pedestrians killed, 1 bicyclist killed and two people dying while riding motorcycles.

One thing that stuck out at me when I looked at the reports this time was another vulnerable user type, and that is the senior citizen. Senior citizens make up a large part of our population and also have unique transportation needs and challenges. Some can no longer drive, and others have reduced capabilities in terms of vision, peripheral vision, perception/reaction time and some are no longer able to afford a vehicle. Many older people use transit, walk or even bike to get around. In this report you will see two senior citizens who were pedestrians and were struck and killed. One was a 91 year old lady using a walker and crossing Dale Mabry Highway. Another was a 70 year old man crossing 49th Street in Pinellas County. We also had a 73 year old man killed while bicycling along Hillsborough Avenue.

Please remember that you need to stay alert and look out for vulnerable users. We also have been getting a lot of good recommendations from Operations Centers, consultants, and our in-house design, planning, maintenance and construction staff. Please keep thinking about safety and submitting your ideas.

Thanks

David W. Gwynn, P.E.

Safety in Seven

District Seven’s Bi-Weekly Crash Report Update - A Summary of Traffic Fatalities that has occurred on public highways in the Tampa Bay Region. For more information, please note names of victims highlighted in blue are hyperlinked to news stories as published by the media and text highlighted in green are hyperlinked to obituaries as available. “Safety Doesn’t Happen by Accident.” Suggestions and/or ideas to enhance safety are welcomed here or by contacting Matthew Nance at 813-975-6747 or Matthew.Nance@dot.state.fl.us. Please note the word “here” is hyperlinked to District Seven's Innovation Share Point Site.

January 14, 2018

Matthew Cain, 43, Clearwater: He was driving eastbound on Countryway Boulevard when he collided with the vehicle in front of him and then veered off the roadway into a concrete utility pole. He died at the scene.

January 12, 2018

Isabel Triana, 91, Tampa: She was struck by a vehicle while crossing Dale Mabry Highway. She was using a walker and trying to cross the four southbound lanes of Dale Mabry outside of a marked crosswalk. She was taken to St. Joseph’s Hospital where she later died.

Ryszard Roman Cwiklik, 84, Weeki Wachee: He was driving west on Country Road when he reached the intersection of US 19 he traveled across both north and southbound lanes and into the path of another vehicle. He died at the scene.

January 11, 2018

Sean William Pinnell, 40, Pinellas Park: He was driving along 71st St when he lost control of his vehicle, hit a pole and overturned his vehicle. He was ejected from the car and taken to St. Petersburg General Hospital where he died of his injuries.

December 24, 2017

Damian Jerel Wellington, 25, Zephyrhills: He was struck by a dump truck while pushing his stalled car off the road on US 301. He was taken to Florida Hospital where he later passed away from his injuries.

January 8, 2018

Donald T Gardner, 70, Seminole: He was crossing 49th Street mid-block when he was struck by a vehicle. He was taken to Bayfront Hospital where he was pronounced dead.

January 7, 2018

Alice Witty, 81, Hudson: Alice and her husband were traveling on SR 52 and attempted to turn left onto Majestic Boulevard but failed to yield to an oncoming vehicle. Alice died on January 9th from the injuries she sustained during the crash. She is survived by her husband, son, daughter, and sisters.
Jesus Manuel De Jesus, 63, Tampa: He was a passenger in a vehicle that, for unknown reasons, traveled off Orient Road and over turned. He was partially ejected from the vehicle and was pronounced dead at the scene.

**January 6, 2018**

Moses Carter Jr, 73, Tampa: He was crossing Hillsborough Avenue on his bike when he was struck by a pickup truck. He was pronounced dead at the scene.

**January 5, 2018**

Erick Miguel Lizardi, 20, Tampa: He was struck by a dump-truck while crossing Sligh Avenue. He was pronounced dead at the scene.

Joery Godson Christophe, 19, Tampa: He was traveling northbound on 40th Street when a merging vehicle struck his driver’s side. His vehicle veered off the roadway and hit a pole. He was ejected from his vehicle and pronounced dead at the scene.

**January 4, 2018**

Bradley Broughton, 18, Wimauma: He was traveling northbound on US 301 at a high rate of speed, weaving in and out of traffic, when he collided with a truck. He died at the scene. He enjoyed spending his free time riding his motorcycle and playing games on his computer.

**January 3, 2018**

Janice M. Corona, 52, Homosassa: She was traveling on SR 44 when a truck veered into her lane, striking her vehicle. She suffered fatal injuries and died at the scene. She was a wife, mother of three sons, and grandmother of six. She was a homemaker and enjoyed spending time with her family.

Idaisa Baylon, 77, Inverness: She was traveling on SR 44 when an oncoming vehicle crossed the centerline and collided head on with her vehicle. She died after being transported to Citrus Memorial Hospital. She loved going to church, sewing, and jewelry. She leaves behind her husband, son, daughters, siblings, and grandchildren.

Cora Lee Stanley, 71, Wesley Chapel: She was a passenger in a vehicle that was traveling west on Eliand Blvd when the driver lost control and veered into the path of a Ford Van. She was known for her beautiful smile, warm hugs, and love for God. She is survived by her sons, grandchildren, siblings, and many relatives.

**January 4, 2018**

Ralph Elmer Densmore, 55, Largo: He was riding his motorcycle southbound on 34th Street. Whiling passing a tow-truck he clipped the side mirror, throwing him from the motorcycle. He was pronounced dead at the scene. He is survived by his sons and daughters.
Hillsborough MPO is honored to take ‘Garden Steps’ into the HealthyCommunity50!

10K ‘seed money’ will increase access to healthy foods in area food deserts

To help improve public health through our communities, the Aetna Foundation, the American Public Health Association, and the National Association of Counties announced on September 15 the first-round winners of the Healthiest Cities & Counties Challenge. The HealthyCommunity50, the 50 cities and counties selected, each receive a $10,000 community seed grant to implement a program that will demonstrate measurable improvements around key social determinants of health.

The Hillsborough Metropolitan Planning Organization (MPO) is thrilled to announce its selection for a HealthyCommunities50 seed grant. Together with our partners – the City of Tampa, Florida Department of Health-Hillsborough, HART, the Planning Commission, and the Coalition of Community Gardens – we will focus on neighborhood access to fresh produce. “The efforts to improve food quality through our community garden coalition, while fostering walkability, bikeability, and transit use, will serve as a guide to other communities interested in improving community health through active living,” said Hillsborough MPO Chair Lesley “Les” Miller, Jr.

Health is being recognized as an emerging focus area for Metropolitan Planning for Transportation, or MPOs. The project, called Garden Steps, has identified food deserts and walkability as two of the city’s biggest problems. To address these concerns, Garden Steps will create community gardens with easy pedestrian, bicycle, and transit access in identified food deserts. The goal is to improve health equity and population health by increasing easy access to fresh fruits and vegetables. The Hillsborough MPO aims to be a model for the other 26 Florida MPOs in collaboration with our diverse public and private sector partners. “The Planning Commission is excited to partner on this project to further build on the importance of coordinated transportation and land use in creating a healthier community,” said Planning Commission Executive Director Melissa Zornitta, AICP.

Designed to create economically competitive, inclusive, and equitable communities, the Healthiest Cities & Counties Challenge will award $1.5 million in prizes to small and mid-sized cities and counties that are able to show measurable improvements in health outcomes over the course of several years through cross-sector partnerships. The HealthyCommunity50 were chosen out of hundreds of city governments, local municipalities, health departments, educational institutions, and other entities.

An expert advisory board selected these groups to continue to the next phase of the Challenge based on plans to improve the health of their communities. Improvements will be measured around at least one of five domains: healthy behaviors, community safety, built environment, social/economic factors, and environmental exposures. An expert panel will conduct site visits to all HealthyCommunity50 members to understand the community’s approach to the project first-hand. At the conclusion of the Challenge, the programs most able to show measurable change will be eligible for prize awards from $25,000 – $500,000. Participants will be judged on their own progress and will not be competing against each other.
CALL TO ORDER, PLEDGE OF ALLEGIANCE & INVOCATION

Chairman Les Miller called the meeting to order at 9:03 a.m. He led the pledge of allegiance and invocation. The meeting was convened on the 26th floor of the County Center.

APPROVAL OF MINUTES

A motion was made by Councilman Maniscalco to approve the minutes from the January 10, 2018 meeting. The motion was seconded by Councilman Cohen and carried unanimously.

COMMITTEE REPORTS, ONLINE COMMENTS

Ms. Gena Torres, MPO staff, read the various MPO Committee reports. All of the MPO’s advisory committees supported the long range transportation amendment. She also shared email and Facebook comments received from the public.

Chairman Miller closed the regular meeting and opened the public hearing.

PUBLIC HEARING ON LONG RANGE TRANSPORTATION PLAN AMENDMENT FOR I-275 OPERATIONAL IMPROVEMENTS AT HOWARD FRANKLAND BRIDGE

Mr. Rich Clarendon, MPO Assistant Executive Director, provided an overview of the proposed amendment to the 2040 Long Range Transportation Plan.

Public Comment was held.

Ms. Karen Michalski spoke in opposition of express lanes.

Ms. Josephine Amato expressed concerns about the state’s pedestrian death rates and recommended better designs for safer bicycle and pedestrian paths.

Commissioner Stacy White requested that Ms. Alden work with County staff to respond to Ms. Amato’s concerns about pedestrian safety.

Commissioner Sandra Murman requested that Ms. Amato contact her office to receive information on the location to send letters of support in Tallahassee.

The public hearing was closed for board discussion.

Commissioner Pat Kemp pointed out tolling situations that are taking place around the world.
Mr. Trent Green inquired about the width of the bicycle and pedestrian lane that was brought up by Ms. Amato. Mr. Bill Jones, Florida Department of Transportation representative, stated that it would be a 12-foot facility and it would have potential bulb outs at certain points along the bridge. In addition, he stated there would be concrete-separated from the travel lanes. Details are being worked out with Pinellas and Hillsborough Counties.

A motion was made by Mr. Waggoner to approve amending the 2040 Long Range Transportation Plan to include express lane ramps as recommended by staff. The motion was seconded by Mayor Jurado and carried unanimously by a roll call vote.

Chairman Miller re-opened the regular meeting. Public comment was held on non-public hearing items.

Ms. Taryn Sabia spoke regarding the Regional Transit Feasibility Plan. She would like to see the community’s vision met. She suggested that the goals that are reflected in the Imagine 2040 Plan be addressed.

Commissioner Kemp commented on Ms. Sabia’s suggestions and wanted her to provide the group additional remarks on economic development.

Chairman Miller reminded members the purpose of the public comment portion of the agenda.

Ms. Karen Michalski voiced concerns about hazardous walking conditions for children and pedestrians and the need for more school buses and sidewalks.

Ms. Josephine Amato addressed the board with concerns of the makeup of the School Transportation Working Group, which is headed by a School Board Member. She feels that the Chair is running a school district agenda and there should be more parents on the working group. She expressed concerns about the distribution of the school bus assets across the district and commented on safe routes to school.

Commissioner White stated that he wholeheartedly agrees with Ms. Amato and that he too has been very vocal that the elimination of courtesy bus service was a wrong decision. Regarding enhancing pedestrian and bicycle pathways in the FishHawk Community, that were mentioned earlier in the meeting, Commissioner White requested that MPO Staff have a discussion with County Staff about safety issues.

Commissioner Murman requested that Ms. Alden work with staff to have more parents added to the working group and stated that the Chair should be bipartisan. She also stated that Ms. Amato would be a great addition to the School Transportation Working Group.

Chairman Miller requested taking the issue of school hazardous walking conditions back to the Policy Committee for discussion.

Commissioner Kemp referenced the role of mobility fees.

Commissioner Miller reminded members if they have subjects they want to appear on the agenda for discussion to please let Ms. Alden know. He also stated that public comment is not a time for debate or discussion on an issue that a person brings up.

**CONSENT AGENDA**

A. Committee Appointments  
B. MPO Chairs Coordinating Committee Interlocal Agreement Update  
C. General Planning Consultant Agreement Amendment.: Kittelson & Associates  
D. Letter Requested by Citizens Advisory Committee Thanking Katharine Eagan, former HART CEO
A motion was made by Commissioner Murman to approve the Consent Agenda. The motion was seconded by Councilman Cohen and carried unanimously.

ROLL CALL VOTE: TRANSPORTATION IMPROVEMENT PROGRAM (TIP) AMENDMENT FOR I-4 RESURFACING

There was no discussion on this item.

A motion was made by Councilman Maniscalco for approval of the TIP amendment to increase the funding to resurface I-4 from East of 50th Street to East of McIntosh Road. The motion was seconded by Commissioner Murman and carried unanimously by a roll call vote.

ACTION ITEM

A. Transportation Improvement Program Amendment for Performance Measure Target-Setting: Safety

Mr. Johnny Wong, MPO Staff, provided information on the TIP amendment update that includes five safety performance measures required by FHWA.

Members expressed concerns about the five-year historical data/averages, the numbers being high in comparison with other regions, and making sure not to place an unfunded mandate on the local governments with respect to the target-setting process.

Ms. Alden stated that our number of crashes is increasing as population and traffic grows. In some cities, the rate of crashes is also increasing, faster than traffic growth, because of the rise in distracted driving. Our local governments and FDOT have worked together very hard to raise awareness of safety issues and have been able to hold the rate steady here in Hillsborough County.

Commissioner White urged Ms. Alden to work closely with County staff and assure that everyone understands what this could equate to operationally.

Ms. Alden stated that if a target of zero crashes for 2018 was adopted by the MPO that it would be an unfunded mandate.

Councilman Cohen stated that it is important in setting these types of goals to make it clear that we are not going to congratulate ourselves and pat ourselves on the back if only 177 people die next year instead of 184.

Commissioner Kemp reminded the group that Hillsborough County has, and has repeatedly had, the second most pedestrian crash deaths and bicycle deaths in the nation. She wanted to know if there would be a follow-up presentation on the information that was presented.

Mr. Wong stated that the information will be provided in the quarterly report on the Vision Zero Action Plan.

Commissioner Kemp stated that she would also like included in the information the road elements that are getting the dollars and what kinds of things are being done in different places.

Mr. Green expressed similar concerns as Councilman Cohen and Commissioner Kemp. He stated that he expressed concerns about the numbers at the Livable Roadways Committee meeting and the group has also requested information on how much is being allocated for safety. He would like to see a comparison of the metrics.
A motion was made by Commissioner Kemp for approval of the CY2018 Baseline Safety Performance Targets. The motion was seconded by Councilman Maniscalco and carried unanimously by a roll call vote.

Chairman Miller reminded members to pay close attention to bills and their location in the legislative process.

**STATUS REPORTS**

**A. Tampa Bay Next Quarterly Update**

Secretary Gwynn provided an update on recent activities. There has been a lot of public engagement. A downtown/urban core community working group will take place late February/early March. In addition, the Heights Mobility Study Workshop will take place late March/early April.

Councilman Cohen said he was informed that the Streetcar Study is not considered a regional solution; but if it intersects with the proposed BRT at a shared station, wouldn’t that provide regional connectivity to Downtown Tampa? Secretary Gwynn stated that it would be part of a regional system, but all the transit in the region would ultimately become part of the regional system, and typical discussion of regional transit includes more than just within an area of a downtown.

Commissioner Kemp suggested Secretary Gwynn come back and present information on how funding from the State works in terms of transit.

Secretary Gwynn stated that they were meeting with staff following the meeting regarding transit funding.

**B. Regional Transit Feasibility Plan**

Scott Pringle, with Jacobs Engineering, provided an update on the vision for the region.

Commissioner White referenced a vote at the HART Board on the plan and inquired about stakeholder agencies conducting their own outreach.

Commissioner Kemp voiced concerns about non-endorsement and that the plan should not be moved forward. She distributed several documents in support of her opinion.

Chairman Miller stated that the MPO Board would not be taking any action on the Plan at the February meeting. He also stated that the vote at the HART Board was not an endorsement or non-endorsement of the plan and that staff will be on the sidelines as the outreach is carried forward to the community.

Mayor Lott stated that he hopes his comments do not appear negative, but until the County Commission finds the resolve to get behind a plan, which is a hard decision, the group will continue looking at pieces of paper with drawings on them and talking about numbers. He also stated that any way Plant City can support, they would love to have the conversation.

Mr. Lopano spoke on behalf of the airport and stated that something needs to be done fast.

Chairman Miller confirmed with Mr. Pringle that public comment will be incorporated into the plan by fall of 2018, and that he would be coming back to the MPO Board during that time. Mr. Pringle stated that he plans to be back several times.
EXECUTIVE DIRECTOR’S REPORT

Ms. Alden provided information on the PlanHillsborough Strategic Planning Retreat that is planned to focus attention on comprehensive and long range planning. The retreat will be held on Friday, March 23 from 1:00 until 4:00 p.m. at the Stetson Law Center. A legislative update was included in the meeting packet addendum. The MPOAC met and discussed the recommendations of the Freight Committee of the MPOs of the state; that committee is going to make a recommendation in the spring to FDOT about significant freight projects, and we will participate and submit projects for consideration.

The Livable Roadways Committee made a motion about a bill for dockless bike sharing. The concern is restricting local governments’ ability to regulate the placement of facilities. This could be an issue with sidewalks complying with the Americans with Disabilities Act. There was an amendment to one of the two bills. The MPO Board agreed for Ms. Alden to have a conversation with the sponsors of the bill. The sponsors are Representative Toledo and Senator Young. Ms. Alden also informed the group of the upcoming Commuter Challenge that all board members are invited to participate in during the week of February 19th through the 23rd.

The Tampa Bay TMA Leadership Group added another meeting to their 2018 meeting schedule. The meeting is scheduled for February 9, 2018 at 9:30 a.m. at the Pinellas Suncoast Transit Authority’s administrative office, located at 3201 Scherer Drive in St. Petersburg.

The next MPO Board meeting is scheduled for Tuesday, March 6, 2018 at 9:00 a.m. on the 26th Floor of the County Center.

OLD BUSINESS & NEW BUSINESS

There was no old or new business conducted.

ADJOURNMENT

A quorum was maintained for the duration of the meeting. There being no further business, the meeting adjourned at 10:50 a.m.
Committee Reports

Meeting of the Citizens Advisory Committee (CAC) on February 14

The committee approved and forwarded to the MPO Board:

✓ Title VI Nondiscrimination Plan Update
✓ TIP Amendment for HART’s Fowler/Florida/Nebraska Corridor Study

They also heard reports from:

- Tampa Bay Next – a member asked how it would benefit South County;
- Regional Transit Feasibility Plan – members inquired about how the recommended alternative compared to what was presented before; if any other metro area has implemented BRT as a starter project; the type of vehicles envisioned to be used; and a concern that shoulder lanes don’t function like a transit running in its own dedicated lane like the CSX corridor;
- Unified Planning Work Program (UPWP) Call for Projects – members suggested a number of safety and traffic calming planning studies for the next two years;
- Tampa Bay Partnership on the Regional Indicators Report.

Meeting of the Technical Advisory Committee (TAC) on February 19

The committee approved and forwarded to the MPO Board:

✓ Title VI Nondiscrimination Plan Update
✓ TIP Amendment for HART’s Fowler/Florida/Nebraska Corridor Study

The TAC also received presentations on:

- Coast Bike Share
- Tampa Bay Next Quarterly Update
- Regional Transit Feasibility Plan
- The Heights Mobility Plan
- UPWP Call for Projects for FY 2019-20

Meeting of the Bicycle/Pedestrian Advisory Committee (BPAC) on February 14

The committee approved and forwarded to the MPO Board:

✓ Title VI Nondiscrimination Plan Update
✓ TIP Amendment for HART’s Fowler/Florida/Nebraska Corridor Study

They also heard status reports on the:

- UPWP Call for Projects for FY 2019-20
- Tampa Bay Next update
- Regional Transit Feasibility Plan
- Coast Bike Share
BPAC members expressed their support for bike share programs generally and for our area’s Coast Bikeshare in particular. With regard to bills under consideration in the legislature, members expressed that some of the dockless bikeshare proposals appear to have less accountability to local governments than do current models.

Meeting of the Livable Roadways Committee (LRC) on February 21

The committee approved and forwarded to the MPO Board:

✓ Title VI Nondiscrimination Plan Update

They moved to request the following UPWP studies in FY19-20:

- Given that FDOT’s new Complete Street Screening Tool uses adopted local government land use regulations to determine context for each roadway, analyze major roads countywide to determine if additional overlay districts or other land use regulations are needed, to support appropriate context classifications by FDOT;
- A study to determine impacts the proposed Rays Stadium will have on the existing streetcar;
- A study of limited-access highway on/off ramps for additional safety measures to reduce conflicts with non-vehicular traffic;
- A feasibility study for a trail overpass at Courtney Campbell Causeway and Rocky Point Drive.

They also heard status reports on the:
- Tampa Bay Next update
- Regional Transit Feasibility Plan

Meeting of the Transportation Disadvantaged Coordinating Board (TDCB), Feb. 23

The TDCB approved and forwarded to the MPO Board:

✓ Title VI Nondiscrimination Plan Update
✓ TIP Amendment for HART’s Fowler/Florida/Nebraska Corridor Study

They also:

✓ Approved the annual evaluation of the Community Transportation Coordinator, and were pleased to see an increase in the reliability of the Sunshine Line’s fleet, resulting from the Board of County Commissioners’ investment in replacement buses.
✓ Moved to request the following UPWP studies in FY19-20: a study addressing the mobility of senior citizens.

Meeting of the School Transportation Working Group (STWG) on February 28

The working group heard presentations on:

- Future Leaders in Planning (FLiP)
- Painted Intersections
- School Interlocal Agreement
- MPO School Safety Top Ten Field Review Results

The group’s March 28 meeting will be a Special Meeting with State Coordinators for Safe Routes to School, Crossing Guard Program.
Meeting of the Tampa Bay TMA Leadership Group on February 9

The leadership group heard presentations on:

- Cost estimates for the top two projects recommended by the Regional Transit Feasibility Plan:
  - The I-275 rubber-tire project estimate of $455 million is for 11 vehicles, a BRT vehicle maintenance facility, and 15 stations and 6 intermodal centers with walk/bike and traffic signal access and parking;
  - The CSX urban rail project estimate of $621 million is for 4 vehicles, a rail vehicle maintenance facility, 6 stations and 2 intermodal centers with walk/bike access, and buying or leasing the track from CSX, refurbishing the track and adding modern train control.

- Potential processes for developing a funding strategy – including:
  - Incremental investments over time, starting with express bus service as soon as possible;
  - Regionwide prioritization for grants; and
  - Asking local governments begin setting aside funds for transit in a future budget year;

- Potential roles and responsibilities of TBARTA in implementing the Regional Transit Feasibility Plan;

- Potential outreach by the TMA members, including potential points of group consensus, and potential partnership with the Suncoast League of Cities.

Meeting of the TBARTA MPO Directors on February 23

Informational updates were provided on:

- Tri-county long range transportation plan – development of growth scenarios, including land use, transportation, and performance measure outcomes, and timing of public outreach activities;
- Preparations for the first annual Gulf Coast Safe Streets Summit;
- Regional tasks to be included in each MPO’s UPWP for FY 19-20;
- Board approvals for the CCC Interlocal Agreement update;
- Potential agenda items and speakers for the July 13 CCC Board meeting;
- Transportation Regional Incentive Program funding available, and scheduling of a staff meeting to update the regional project priority list.
Children
deserve safe places to walk and bike—starting with the trip to school.

Everyone is welcome to join the Hillsborough MPO’s School Transportation Working Group and our partners Hillsborough County School Board, FDOT’s Community Traffic Safety Team, and the Vision Zero Coalition for a special presentation.

March 28th 1:30 p.m.
26th floor of County Center,
601 E. Kennedy Blvd. Tampa
Free parking at the Pierce St. Garage

Guest Speakers:
Dana Crosby, Florida School Crossing Guard Training Program
Sarita Taylor, FDOT’s State Safe Routes to School Coordinator
