

URBAN DESIGN FOR SHARED MOBILITY

FSU graduate students from the Department of Urban & Regional Planning invite you to participate in one of two open houses. Meet team members who will be developing a series of conceptual urban design templates to facilitate shared mobility and autonomous transit to share your ideas.

Four design contexts are being studied:

- Urban stadium (Amalie Arena)
- Urban downtown (Water Street Tampa development) and West River Redevelopment Area
- Suburban Mall (Citrus Park Mall) and Westchase area
- Rural destination (Keystone Civic Center)

The use and integration of autonomous vehicles (AV) and technologies to support public transportation in Florida will challenge current planning assumptions, from municipal ownership of public transportation assets to local land use policies required to accommodate AV.

How will our cityscapes and planning need to change?
Come learn more about the project and share your ideas!

➤ THURSDAY, MARCH 7, 4-7 PM

Maureen B. Gauzza Public Library
formerly the Upper Tampa Bay
Regional Library
11211 Countryway Boulevard
Tampa, Florida 33626-2624

➤ FRIDAY, MARCH 8, 9 AM-NOON

Hillsborough County Center
Multi-Functional Room in Lobby
601 E Kennedy Boulevard
Tampa, FL 33602

Stop by either open house

Participate in a brief design
exercise

Share your ideas

The Hillsborough County City-County
Planning Commission is proud to
support the FSU
Capstone Project and community
open houses.
