The City of Temple Terrace, a municipality within Hillsborough County, will be provided a portion of the County’s Transportation Surtax fund to improve transportation across the City. The funding source was approved in November 2018 by the electorate of Hillsborough County to levy a one percent (1%) transportation sales surtax. The surtax intended use within the City of Temple Terrace is to be in the following categories:

- **Maintenance and Vulnerability Reduction:** Improve repair and maintain existing streets, roads, and bridges, including fixing potholes, or reduce congestion and transportation vulnerabilities.

- **Congestion Reduction:** To relieve rush hour bottlenecks and improve flow of traffic on existing roads and streets and through intersections. May include projects that improve intersection capacity through the use of technology, the construction of new intersections, the redevelopment of existing intersections, and may include related infrastructure such as roundabouts and turn lanes.

- **Transportation Safety Improvements:** To promote transportation safety improvements on existing streets, roads and bridges.

- **Transportation Network Improvements:** To be expended on bicycle or pedestrian infrastructure and related improvements that make walking and biking safer, to the extent the foregoing is or is planned to become part of the transportation network within any Agency’s jurisdiction.

An interlocal agreement was entered into in January 2019 between multiple municipal organizations within Hillsborough County, including the City of Temple Terrace. This agreement requires each municipality within the agreement to create a Surtax Project Plan to be submitted annually to the Independent Oversight Committee (IOC) on or before September 30th. The City of Temple Terrace has created the 2020 Surtax Project Plan attached to this document explaining each project that the City intends to implement with the provided Surtax funds.

Once the IOC has reviewed each agency’s project plan, the results of the annual audit process and any findings made will be published in an annual report. This annual report shall be provided to each agency within the interlocal agreement and published online and in newspapers for public review. The IOC will hold a public hearing on each audit and annual report.

RE: Engineering Certification for the City of Temple Terrace’s 2020 Surtax Project Plan

Dear Independent Oversight Committee:

In accordance to the Process for Submission of Agency Project Plans for Certification guidelines, I, as the City Engineer for the City of Temple Terrace, certify by this letter that the City of Temple Terrace’s 2020 Surtax Project Plan is in compliance with Article XI of the Transportation Surtax.¹

The 2020 Surtax Plan has been approved by the City of Temple Terrace City Council on September 17, 2018 through Resolution 101-19.

Vincenzo S. Corazza, P.E.
FL #81122

¹ Ms. Allison Rainey, E.I. of Kimley-Horn and Associates, Inc., an engineering consultant for the City of Temple Terrace, has under my supervision, prepared the City of Temple Terrace’s 2020 Surtax Project Plan cost estimates and compiled individual project sheets.
RESOLUTION 101-19

A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF TEMPLE TERRACE, FLORIDA, APPROVING THE CITY OF TEMPLE TERRACE’S 2020 TRANSPORTATION SURTAX PROJECT PLAN; AND PROVIDING AN EFFECTIVE DATE.

WHEREAS, in November, 2018, the electorate of Hillsborough County approved a ballot measure providing for an amendment to the Hillsborough County Charter which levies a one percent (1%) sales surtax specifically earmarked for the funding of countywide transportation infrastructure improvements, which officially went into effect on January 1, 2019; and

WHEREAS, the Hillsborough County Charter Amendment provides, in part, that the Transportation Surtax may only fund projects related to “road and bridge improvements; the expansion of public transit options; fixing potholes; enhancing bus service; relieving rush hour bottlenecks; improving intersections; and making walking and biking safer”; and

WHEREAS, An Agency receiving Surtax funds must adhere to the “Distribution of Surtax Proceeds” as outlined in Section 11.07 of the Charter Amendment unless the agency receives less than five percent (5%) of the total annual proceeds, which is the case for the City of Temple Terrace; and

WHEREAS, although the City is exempt from the above proceed spending allocations, it is still required to submit by September 30 of each year an annual Transportation Project Plan to the Independent Oversight Committee (IOC) for their review and certification that it adheres to the intent of the Surtax; and

WHEREAS, this Project Plan must first be approved by City Council before its submission to the IOC; and

WHEREAS, once certified, funding can be applied to projects set to be initiated January 1 of the following year; and

WHEREAS, the Surtax may only be used for projects listed in the City’s certified Project Plan, and the City may amend the Plan anytime during the calendar year by submitting the project to the IOC for certification and subsequent inclusion.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF TEMPLE TERRACE, FLORIDA, this 17th day of September, 2019,

PASSED AND ADOPTED BY THE CITY COUNCIL OF THE CITY OF TEMPLE TERRACE,

(Corporate Seal)
