The local coordinating boards (LCB) operating in Hillsborough, Pasco, and Pinellas Counties guide and coordinate transportation services with the goal of improving quality of life for those who are transportation disadvantaged, including the following:

- children of high risk
- the elderly
- those who have a physical or mental disabilities
- the economically disadvantaged

In addition, the Americans with Disabilities Act (ADA), passed in 1990, has greatly increased transportation options for people with disabilities. The law called for transportation service improvements, including the availability of paratransit service. ADA does not require a transit agency to meet all of the transportation needs of individuals; however, the law does require that people with disabilities receive the same mass transportation service opportunities everyone else receives.

This brochure contains information about some of the services offered under the ADA and through each county’s transportation disadvantaged program, as well as other options available to people who are transportation disadvantaged throughout the region.
Angel Flight Southeast is a non-profit volunteer pilot organization involved in "public benefit flying." It provides a variety of services to the community, but mostly is involved in arranging free air transportation by private aircraft to distant medical facilities when commercial service is not available, impractical, or simply not affordable.
