Gibsonton Drive/Boyette Road
East Bay Road to Balm Riverview Road

The 2017 Vision Zero Action Plan identified Gibsonton Drive/Boyette Road as one of the top 20 most dangerous roadways in Hillsborough County. This designation means that people driving, walking, riding a bike, and getting on a bus are more likely to be seriously injured or killed along this corridor than on other roads in the County. To combat the needless death and injury on our roads, Hillsborough County and the Hillsborough MPO are working together to identify why serious crashes are occurring along Gibsonton Drive/Boyette Road, and what must be done to stop this unnecessary loss of life and injury. Take a survey about safety on Gibsonton Drive at planhillsborough.org/vzcorridors.
